# Foreword by H.E Dr. Surin Pitsuwan Secretary-General of ASEAN

Against the backdrop of the fragile global economy and economic uncertainties, the role of Small and Medium Sized Enterprises (SMEs) becomes important in mitigating these effects especially with their ability to adapt quickly to the changing environment. Further, SMEs represent 99 per cent of all business enterprises, generate some 56-97 per cent of employment; contribute from 30 to 60 per cent to gross domestic product (GDP); and 19 to 31 per cent to the export earning of economies across ASEAN region.

This drives the point on the importance of ensuring the needed support of the SMEs by creating conducive environment that will nurture and stimulate the development of entrepreneurial, innovative and competitive SMEs. Through such efforts in the promotion of SMEs' competitiveness and innovativeness SMEs' can contribute not only to greater economic growth, but also create new sources of growth that will support the vision of AEC's equitable economic development pillar.

The launch of the ***Directory of Innovative SMEs in ASEAN 2012*** is to support the idea to acknowledge, promote and further encourage the SMEs to contribute towards innovation in ASEAN. This timely launch will also assist in enhancing the regional efforts to promote SME innovation and enable them to tap into the regional and global markets to attract venture capitalists to expand their businesses.

I am confident that the illustrative SMEs listed in this Directory certainly will be able to offer new products and services to meet the demands and expectations of the markets both regionally and globally.

I wish the SMEs in ASEAN every success!

# Introduction to the ASEAN Economic Community (AEC)

In 2003, all ASEAN Leaders resolved that an ASEAN Community shall be established by 2020. In 2007, the Leaders affirmed their strong commitment to accelerate the establishment of an ASEAN Community by 2015. The ASEAN Community realisation procedure comprises three pillars that work in tandem: the ASEAN Political-Security Community, ASEAN Economic Community and ASEAN Socio-Cultural Community.

Accordingly with these pillars agreed upon, the Leaders agreed to speed up the establishment of the AEC to 2015 and to transform ASEAN into a region with free movement of goods, services, investment, skilled labour, and freer flow of capital.

The ASEAN Economic Community (AEC) Blueprint was then adopted in 2007. The AEC Blueprint serves as a coherent master plan guiding the establishment of the AEC. It identifies the characteristics and elements of the AEC with clear targets and timelines for implementation of various measures as well as pre-agreed flexibilities to accommodate the interests of all ASEAN Member States.

Taking into consideration the importance of the external trade to ASEAN and the need for the ASEAN Community as a whole to remain outward looking, the ASEAN Economic Community (AEC) envisages the following key characteristic: (a) a single market and production base, (b) a highly competitive economic region, (c) a region of equitable economic development and (d) a region fully integrated into the global economy.

## **Single Market and Production Base**

With the realisation of the ASEAN Economic Community, ASEAN will become a single market and production base. The establishment of ASEAN as a single market and production base will make ASEAN more dynamic and competitive with new mechanisms and measures to strengthen the implementation of its existing economic initiatives, accelerating regional integration in priority sectors, facilitating movement of business persons, skilled labour and talents; and strengthening the institutional mechanisms of ASEAN.

An ASEAN single market and production base comprises five core elements: (i) free flow of goods; (ii) free flow of services; (iii) free flow of investment; (iv) freer flow of capital; and (v) free flow of skilled labour. Industrial sectors included in the single market and production base comprise the twelve (12) priority integration sectors: agro-based products, air travel (air transport), automotive, e-ASEAN (information and communication technology - ICT), electronics, fisheries, healthcare, rubber-based products, textiles and apparel, tourism, wood-based products and logistics as well as the food, agriculture and forestry sectors.

A single market for goods and services will facilitate the development of production networks in the region and enhance ASEAN's capacity to serve as a global production centre and as a part of the global supply chain. Tariffs will be eliminated and non-tariff barriers will be gradually phased out. Simple, harmonised and standardised trade and customs are expected to reduce transaction costs. There will be a free movement of professionals. ASEAN investors will be free to invest in sectors and the services sectors will be opened up.

### **Competitive Economic Region**

The creation of a stable, prosperous, and highly competitive economic region is the goal of ASEAN economic integration.

There are six core elements under the competitive economic region: (i) competition policy; (ii) consumer protection; (iii) intellectual property rights (IPR); (iv) infrastructure development; (v) taxation; (vi) e-commerce.

ASEAN Member States have committed themselves to introduce nation-wide competition policies and laws (CPL) to ensure a level playing field and incubate a culture of fair business competition for enhanced regional economic performance in the long run.

### **Equitable Economic Development**

Under equitable economic development there are two elements: (i) Small and Medium Enterprise (SME) development and (ii) Initiatives for ASEAN Integration. These initiatives move towards bridging the development divide both at the SME level and enhance economic integration of Cambodia, Lao PDR, Myanmar and Viet Nam (CLMV) to enable all Member States to move forward in a unified manner and to enhance ASEAN's competitiveness as a region as well for all to benefit from the integration process.

## **Integration with Global Economy**

ASEAN operates in an increasingly inter-connected and highly networked global environment, with interdependent markets and globalised industries. In order to enable ASEAN businesses to compete internationally, to make ASEAN a more dynamic and mainstream global supplier and to ensure that the internal market remains attractive for foreign investment, ASEAN has to look beyond the borders of AEC.

Two approaches taken by ASEAN in integrating with the global economy are: (i) a coherent approach towards external economic relations through Free Trade Agreements (FTA) and Closer Economic Partnerships (CEP); and (ii) enhanced participation in global supply networks.

# The History of Regional Cooperation on Small and Medium Sized Enterprises (SME)

Fostering SME development has been one of the priority areas for policy attention and resources in ASEAN. As part of the third pillar of the ASEAN Economic Community (AEC) Blueprint on Equitable Economic Development, the Leaders have reiterated their commitment and urged the relevant bodies to double their efforts to foster a strong, dynamic and efficient SME sector. This would help ensure the sustainable, inclusive and broad-based economic and social development of ASEAN. The Leaders further encouraged ASEAN's dialogue and development partners to continue their support and assistance in the promotion of SME development in the region.

The ASEAN Small and Medium Enterprise Agencies Working Group (SMEWG) is responsible for formulating policies, programs and activities to foster SME development in the region. It also serves as a consultative and coordination forum for SME agencies in ASEAN. SMEWG Meetings are convened regularly twice a year, and as and when necessary.

The 1<sup>st</sup> SMEWG Meeting was held in Jakarta, Indonesia, on 24 April 1995. The ASEAN Plan of Action on Small and Medium Enterprises Development and the Terms of Reference (TOR) for the SMEWG were endorsed at the 37<sup>th</sup> ASEAN Economic Ministers (AEM) Meeting held on 7-9 September 1995 in Bandar Seri Begawan, Brunei Darussalam.

At the 10<sup>th</sup> SMEWG Meeting, a brainstorming session on the ASEAN SME Development Decade (ASDD) 2002-2012 was held on 12 March 2002 in Manila, the Philippines. The brainstorming session was attended by delegations of the ASEAN SME Agencies Working Group and other stakeholders such as the ASEAN-CCI and representatives from SME associations within ASEAN.

The Meeting agreed that the objectives of the ASEAN SME Development Decade 2002-2012 were to:

- a. accelerate the pace of SME development, taking into full account the differences in the levels of development in each member country;

- b. enhance the dynamism of ASEAN SMEs by facilitating their access to markets, finance, information, information and communication technology (ICT), human resource, and skills as well as technology;
- c. strengthen the resilience of ASEAN SMEs to better withstand adverse macroeconomic and financial difficulties, as well as the challenges of a more liberalised trading environment; and
- d. harness and increase the potential of ASEAN SMEs to contribute to the growth and development of ASEAN as a region.

To accelerate the transformation and integration of regional SMEs into a competitive and dynamic supplier of the global and regional markets, the ASEAN Policy Blueprint for SME Development (APBSD) 2004 - 2014 was considered and endorsed at the 36<sup>th</sup> AEM Meeting held on 3 September 2004 in Jakarta, Indonesia. The APBSD outlines a framework for SME development in the ASEAN region and comprises of strategic work programmes, policy measures and indicative outputs.

In 2009, following the sixth year of implementation of the APBSD, the AEM agreed to undertake a stock-taking exercise to review the implementation of the APBSD. Subsequently, the Leaders at their 14<sup>th</sup> ASEAN Summit on 27 February–1 March 2009 in Hua Hin, Thailand, tasked the AEC Council to develop a concrete plan of actions aimed at enhancing the competitiveness and resilience of the SMEs in the region. In operationalizing this mandate, the SMEWG decided to develop the Strategic Action Plan for ASEAN SME Development (2010-2015).

The Action Plan was subsequently endorsed at the 42<sup>nd</sup> AEM Meeting in August 2010. This policy initiative covers five important areas of regional cooperation -- namely (i) SME access to finance; (ii) internationalization of SMEs; (iii) establishing SME Service Centres; (iv) improving marketing and ICT skills of SMEs; and (v) strengthening SME human resource development and capacity building.

Several major deliverables under the Action Plan and the AEC Blueprint have been accomplished to date. To ensure the Action Plan continues to be aligned with the current regional developments, however, the SMEWG is working to update the Action Plan through the assignment of country coordinators to draft a Roadmap and stock-take the various initiatives and activities under the assigned dimensions.

Regional cooperation on SME has received significant attention from external Dialogue Partners. The 1<sup>st</sup> Joint Consultation between the ASEAN SMEWG and the SME Agencies of the Plus-Three Countries was held on 3 April 2007 in Yangon,

Myanmar. Subsequently, the 1<sup>st</sup> Joint Consultation between the ASEAN SMEWG and Japan was convened on 23 November 2007 in Brunei Darussalam. The regular Joint Consultations serve as an important platform to exchange best practices and identify solutions to resolve issues hampering SME development.

Recognising the important role of the private sector as the engine of growth, the ASEAN SME Advisory Board was established to provide policy inputs to the AEM and guidance on high-priority matters to the SMEWG. The Advisory Board, which comprises the Heads of the ASEAN SME agencies and prominent private sector representatives, meets annually (or as and when necessary). The TOR of the Advisory Board was subsequently endorsed at the 43<sup>rd</sup> AEM Meeting on 10-11 August 2011, in Manado, Indonesia.

The Advisory Board convened its first Consultation with the AEM at the sidelines of the 44<sup>th</sup> AEM Meeting on 28 August 2012 in Siem Reap, Cambodia. Key issues hampering SME development in the region and the ways forward were deliberated.

To further enhance SME access to finance, an Expert Panel on SME Access to Finance was established to provide financial expertise and recommendations on regional projects. The Panel will also provide guidance on the best practices, challenges, and key success factors affecting SME access to finance.

In addition, the “First ASEAN Conference on Financial Inclusion” was convened on 27-28 June 2012 in Jakarta, Indonesia, as part of the implementation of the ASEAN Framework for Equitable Economic Development (AFEED). This Framework had been adopted by the Leaders at the 19<sup>th</sup> ASEAN Summit in November 2011 in Bali, Indonesia.

In collaboration with the Economic Research Institute of ASEAN and East Asia (ERIA), the SMEWG is developing the ASEAN SME Policy Index to serve as a strategic monitoring tool for SME development in the region. The Policy Index covers eight policy dimensions -- namely (i) the SME policy and business environment; (ii) cheaper and faster start-up and better legislation and regulation for the SMEs; (iii) access to finance; (iv) access to technology and technology transfer; (v) market access and getting more out of the single market; (vi) entrepreneurial education and training; (vii) ICT and information access; and (viii) developing stronger more effective representation of the SME's interests.

It can therefore be concluded that regional cooperation on SMEs continues to be elevated as SMEs form the backbone of the ASEAN economy. SMEs provide the largest source of domestic employment, as well as opportunities for women and the youth to participate in the economic and social development of the country. Thus, a conducive business environment would need to be further enhanced to foster innovative and creative SMEs that would become competitive amidst the challenges of the global market.

## ASEAN Business Awards

The ASEAN Business Awards (ABA) has been convened alongside the ASEAN Business and Investment Summit (ASEAN – BIS) since 2007. The ABA recognizes the most outstanding and successful ASEAN companies contributing to the ASEAN's economic growth and prosperity. The Award serves as an important platform to showcase home-grown and globally competitive companies, as well as to spotlight promising ASEAN SME's, support their growth and their quest to become global players.

The ABA categorizes winners and runner-ups into 4 categories, namely; Growth, Employment, Innovation, and Corporate Social Responsibility (CSR). The winners and runner-ups of the ABA will be designated as "Most Admired ASEAN Enterprise" and are announced at the Closing Gala Dinner of the ASEAN-BIS which is convened annually and at the sidelines of the ASEAN Summit. The fifth round of the ABA will be convened alongside the ASEAN-BIS in November 2012. The ABA 2007-2011 winners are as follows:

2007 ABA Winners	
Category	Winners
Growth	Singtel
Employment	CapitaLand
Innovation	Zest-O Corporation
Corporate Social Responsibility	Kalbe

2008 ABA Winners	
Category	Winners
Growth (Large Company)	Alliance Global Group Inc.
Employment (Large Company)	Keppel Offshore & Marine Limited (Keppel O&M)
Innovation (Large Company)	Martha Tilaar Group
Corporate Social Responsibility (Large Company)	The Bangchak Petroleum Public Company Limited
Growth (SME)	Cherie Hearts Group International Pte. Ltd.
Employment (SME)	Network Express Courier Services Pte Ltd.

Innovation (SME)	Pewter Art
Corporate Social Responsibility (SME)	The Wongpanit Garbage Recycle Separation Plant (Wongpanit)

2010 ABA Winners	
Category	Winners
Growth (Large Company)	Top Glove Corporation Berhad
Employment (Large Company)	Tenaga Nasional Berhad
Innovation (Large Company)	YCH Group Pte Ltd
Corporate Social Responsibility (Large Company)	Keppel Land Limited
Growth (SME)	Thu Duc Housing Development Corporation
Employment (SME)	KPJ Ampang Puteri Specialist Hospital
Innovation (SME)	SeaBank
Corporate Social Responsibility (SME)	Greenpac Pte Ltd

2011 ABA Winners	
Category	Winners and Runner-Up
Growth (Large Company)	Charoen Pokphand Foods Public Co. Ltd
	PT. Bank Tabungan Pensiunan Nasional Tbk
Employment (Large Company)	CIMB Group Holdings
	PT. Bank Negara Indonesia Tbk
Innovation Large	PT. Kalbe Farma Tbk
	Delta Electronics (Thai) Public Co. Limited
Corporate Social Responsibility	City Development Limited
	Mitr Phol Dugar Corp. Limited
Growth (SME)	CV. Media Kreasi Bangsa
	Feinmetall Singapore
Employment (SME)	PT. Sarandi Karya Nugraha
	Achieve Group
Innovation Large (SME)	Rigel Technology Pte. Ltd
	PT. Jaty Arthamas
Corporate Social Responsibility (SME)	Meritus Hotels & Resorts
	Thumbprints Utd. Sdn. Bhd

Since 2011, the ASEAN SMEWG and the ASEAN-BAC have collaborated to ensure and enhance the participation of SMEs. This year the ABA will place more emphasis on the most innovative SMEs.

The ASEAN Business Award 2012 is scheduled to be held in conjunction with the 21<sup>th</sup> ASEAN Summit in November 2012, the 2012 ABA are presented in four categories namely growth, innovation, employment and corporate social responsibility (CSR).

Companies that are interested to participate in the event are encouraged to visit:  
[www.asean-bac.org/award](http://www.asean-bac.org/award).

## Brunei Darussalam

### Timbertech Sdn. Bhd

Address : Lot 43 & 44, Simpang 557 Kampong Salar Industrial Estate,  
Jalan Muara, BU1429 Bandar Seri Begawan,  
Negara Brunei Darussalam

Tel. : +673 2793993

Fax : +673 2793998

Email : [timbertech@brunet.bn](mailto:timbertech@brunet.bn)

#### **Overview and Success Stories:**

Timbertech Sdn. Bhd. was established on 29<sup>th</sup> October 1997. This company is a major producer of construction materials such as:

1. Manufacturing of Pre-cast Reinforced Concrete Pile 'EC'
2. GANG-NAIL Building Systems for Pre-Fabricated Timber Trusses
3. Sawn Timbers
4. Chemical Pressured Treatment to Sawn Timbers
5. Timber Moldings

#### **This company has secured a variety of recognitions which include:**

- A MITEK licensed fabricator
- MS ISO 9001: 2008 Certified
- Century International Quality Era Award (2006 in Geneva, Switzerland)
- Certified by the Construction Planning and Research Unit of the Ministry of Development in Brunei Darussalam
- IQNeT (The International Certification Network)

**Megamas Training Company Sdn. Bhd.**

Address : Tol: 3593, Simpang 26 Jalan Mumong/Kuala Balai, Kuala Belait,

Negara Brunei Darussalam

Tel. : +673 3332800

Fax : +673 3332845

Email : [info@megamas.com](mailto:info@megamas.com)

**Overview and Success Stories:**

Megamas Training Company Sdn. Bhd. was established in 1989. Its vision is to be a market leader in offering the best HSE training quality in the World and the safest Environment. At the moment, Megamas Training Company Sdn. Bhd. has provided more than 120 training programs in the fields relevant to the issues such as Health, Safety & Environmental (HSE) which has been recognized internationally by prestigious organizations around the world, such as OPITO, the BritishSafety Council.

Among the achievements of Megamas Training Company includes:

- Handling the first NEBOSH International Certificate course in Southeast Asia in 2004.
- Provide training for the world's first carbon foot printing research to better understand the release of carbon dioxide (CO<sup>2</sup>).
- Provide the one and only maritime training to fulfill the STCW'95 standards in Negara Brunei Darussalam and is one of the two private training providers around the world who carry out military training in a civilian setting in Brunei Darussalam and the Malaysian Armed Forces.

Among the long-term focus of the Company are:

1. Develop Megamas Brand internationally – especially in Southeast Asia and the Middle East;
2. Develop the HSE software and Computer-Based Training; and
3. Become the Brunei Maritime Training Centre.

**A-Fontane Company**

Address : No. 23, Block B, Bangunan Warisan P.H.N. Simpang 68,  
Kampong Serusop Jalan Muara, Bandar Seri Begawan,  
Negara Brunei Darussalam

Tel. : +673 2332266

Fax : +673 2331177

Email : [bk@a-font.com](mailto:bk@a-font.com)

**Overview and Success Stories:**

A-Fontane Company was established in 2002. In 2010, this Company is successful in becoming the major supplier of products packaging for HORECA industry (*Hotel, Restaurants and Cafes*) in Negara Brunei Darussalam. Among of their significant achievements in 2010 includes:

- Increased revenue by 20 times;
- Provide employment opportunities for local residents;
- Develop their business by opening up a subsidiary company in Malaysia and China;
- The quality created products have been getting very excellent response in the domestic and international level. The company's main customers include the Empire Hotel & Country Club, Royal Brunei Catering and packaging for "*Made in Brunei*" food products.

Among the recognitions received by A-Fontane Company was the APEA Award: "Woman Entrepreneur of the Year 2010".

**Aewon Garment & Embroidery Company**

Address : Unit 1 & 2, Block D Industrial Parkland Mulaut Ban 5 Kampong Mulaut,

BG2121, Negara Brunei Darussalam

Tel. : +673 2670487 / +673 8753262

Fax : +673 2670487

Email : [aewonbrunei@gmail.com](mailto:aewonbrunei@gmail.com)

**Overview and Success Stories:**

Aewon Garment & Embroidery Company was established in 2002. The company is a leading clothing manufacturer, producing different kinds of bags and other accessories to suit the customer's style. This company has its own brand for each segment of the product.

The products created have been receiving very good response in the local market such as sports uniforms for public and private schools as well as corporate uniform clothes. Aewon Company also has a marketing branch operating in Kuala Lumpur, Malaysia.

## Architect Idris

Address : Lot 20010, Taman Alam Jalan Telanai, Gadong Bandar Seri Begawan,  
BE1118, Negara Brunei Darussalam  
Tel. : +673 2650275/77/78  
Fax : +673 2650276  
Email : [office@arkitekidris.com](mailto:office@arkitekidris.com)

### **Overview and Success Stories:**

Architect Idris is one of the architectural companies in Brunei which has been operating for 27 years. It was first established in 1985 and is a pioneer in the field of 'Computer Aided Design and Drafting' that maintained its Malay Islamic Monarchy (MIB) concept and criteria.

Architect Idris is also the first company in Brunei Darussalam that has received the 'ISO 9001' certificate. Most of its employees are certified and has become a member of various organizations including Association of Survey, Engineers and Architects (PUJA), RAlA, PAM (Brunei, British, Australian and Malaysian Institute of Architects).

Among the design produced by Architect Idris comprise:

1. International Convention Centre Building
2. IBB Headquarters Building
3. The Ministry of Industry and Primary Resources Building
4. One Billionth Barrel Monument

Among the recognition received by the Architect Idris includes:

- ISO 9001
- Winner – 1999 Serasa Maritime Complex Competition
- Winner of the 12th International Construction Award 2000 in Madrid, Spain
- Winner – TAP HQ Building Competition
- Winner – Development of Village Zone at Sungai Liang Industrial Park (SPARK).
- "Entrepreneur of the Year 2010" Award

**PTAS Company Sdn. Bhd.**

Address : Lot 1 & 2, Tapak Perindustrian Pekan Belait Simpang 114,  
Jalan Setia Diraja, Kuala Belait, Negara Brunei Darussalam

Tel. : +673 3341555

Fax : +673 3333842

Website : <http://www.ptasgroup.com/index.php/contact-us>

**Overview and Success Stories:**

PTAS Company Sdn. Bhd. was established in 1984 and is the leading service providers and equipment suppliers to the oil and gas as well as energy in Brunei Darussalam in Maintenance, Construction, Drilling and other marine related activities. This company is also a distributor of international brands for equipments, chemicals, specialist and consultancy services related to the oil & gas as well as energy.

This company has also made Joint Ventures with several International Experts companies for import services to Brunei Darussalam and to train and develop more job opportunities for local employment. The partnerships includes with:

- Intico (50-50 JV) – specialized in the field of Inspection;
- Weatherford (50-50 JV) – specialized in Tubular Running Services; and
- Hamon Thermal Europe (50-50 JV) – Cooling and Rejuvenation of Cooling Towers.

The total annual sales of this company have increased from BND 3 Million in 1984 to BND 65 Million in 2009. Among of the products and services offered by this company are as follows:

1. Manufacture of Wire Wrapped Screens
2. Warehousing of GENP Turbo-Machinery Spares
3. Blending of Water Treatment Chemicals
4. Provision of Well Bore Cleaning Tools
5. Supply of Smith Bits and Associated Services
6. Supply of Valves and Associated Services
7. Supply of Marine Vessel to BSP
8. BLNG Cooling Water System Rejuvenation

PTAS Company Sdn. Bhd. placed its best interests in the importance of Quality and Health, Safety and the Environment which in turn made PTAS Company Sdn. Bhd. to be among the first local companies to get ISO 9001 Certificate in 1995. In 2006, PTAS was the first company in the region to get certified Integrated Management System which incorporates the requirements of ISO 9001 for Quality, ISO 14001 for Environment and BSOHSAS 18001 for Safety.

## Cambodia

### Oral Drinking Water

Address : No 273 G, Street 6A, Sankat Prek Leap, Khan Russey Keo,  
Phnom Penh, Cambodia  
Tel. : (855)-23-430-929  
Email : [oral\\_drinkingwater@yahoo.com](mailto:oral_drinkingwater@yahoo.com)

#### **Overview and Success Stories:**

Oral Drinking Water was established on 7<sup>th</sup> July 2007. The idea was originally initiated by Her Excellency Bun Rany Hun Sen to enhance the cause of Cambodia's Red Cross's mission. The organization is managed and operated by Phnom Penh Red Cross Branch. It is the second most popular Cambodian drinking water brand. It received ISO9001 in 2008 and HACCP award in 2011.

### Confirel Co., Ltd.

Address : No 138, Street 110, Phnom Penh, Cambodia  
Tel. : (855)-12-981-724; (855)-23-890-063  
Fax : (855)-23-216-217  
Email : [info@confirel.com](mailto:info@confirel.com)

#### **Overview and Success Stories:**

Confirel is founded by Dr. Hay Ly Eang in 2001. It produces fruit beverages by utilizing local resources especially palm fruit. Among its products are fruit jam, fruit juice, palm sugar, palm vinegar, and palm wine. In 2005, Confirel won the Corporate Citizenship Award (Environmental Stewardship) from IFC/MPDF and a prize of "Palme d'Or" at Natexpo 2005 category "Bien se nourir" organized in Paris.

**Ly Ly Food Industry Co., Ltd.**

Address : No. 168A, Street Singboard, Sangkat Toek Thlar, Khan Sen Sok,  
Phnom Penh, Cambodia  
Tel. : (855)-23-689-9999  
Fax : (855)-23-995-388  
Email : [keo\\_mom@lylyfood.com](mailto:keo_mom@lylyfood.com)

**Overview and Success Stories:**

Ly Ly Food was started in 2002 as a small local snack producer by Ms. Keo Mom to serve just a couple markets around Phnom Penh. Slowly, Ly Ly Food was recognized and liked by many due to the innovative way of making snacks and flavors offered. Ly Ly Food had just moved to a new factory in 2011 and employed over 130 people. Right now with the new and improved factory, Ly Ly Food is available throughout Cambodia and offers even more attractive snack products.

**KC Food**

Address : No 46, Street 368, Toul Svay Prey I, Khan Chamkamon,  
Phnom Penh, Cambodia

Products/Services: various flavor of chichi-corn

#### **Overview and Success Stories:**

Milestones:

- 2005 Most Outstanding La Union Entrepinoy Sector Leader for Processed Food Category
- Nominee for 2009 Presidential Awards for Outstanding Micro, Small and Medium Entrepreneurs

**AHCIL Laboratories, Inc.**

Name of Owner: Armand Guangko  
 Address : Pert Compound, Tingub, Mandaue City  
 Tel. : +6332 328 0930; 516 8959  
 Email : [ahcil\\_laboratories@yahoo.com](mailto:ahcil_laboratories@yahoo.com)  
 Website : <http://www.ahcil-antica.com>  
 Products/Services: Organic pesticide

**Overview and Success Stories:**

Ahcil Laboratories Inc is a manufacturer and distributor of organic pesticide named as Antica Organic Non Toxic Fungicide and Bactericide. The product controls serious crop diseases such as Sigatoka in bananas and anthracnose in mango and other crops. Antica's efficacy lasts longer than the standard chemical check when applied to plants. It also establishes a biofilm formation when in contact with the leaves so that it cannot be easily washed off by rains. Aside from being non-hazardous, this stickering effect and longer efficacy of Antica makes it more economical for farmers to use.

Ahcil Laboratories, Inc. is continually conducting more studies and researches to widen its market and offer customized products to customers either through direct distribution or toll manufacturing.

Ahcil Laboratories is a recipient of various awards, among others, Most IP Invention conferred by the Philippine Chamber of Commerce and Industry (PCCI); Filipinovation Award by the Department of Science and Technology (DOST) and Outstanding Creative Research Award by DOST and Intellectual Property Office (IPO).

Products/Services: Wholesaler, retailer, manufacturer, importer and inventor of electronic, electrical, industrial, and communications products

**Overview and Success Stories:**

AVESCO MARKETING CORPORATION is the leading and most comprehensive marketing institution dealing in industrial, electrical, electronics and communications products in the Philippines.

The dedication and business foresight of its founder spurred the birth of Avesco Marketing Corporation in 1964 then engaged in importation, wholesaling, indenting, tendering and retailing. In the 80s, it entered into design, engineering and installation of different systems such as telephone, professional and consumer audio, security, audio/video intercom, intelligent Public Address/Background Music and fire alarm systems among others. Today, AVESCO has 6 affiliate companies and approximately 500 dealers nationwide. It continues to gain stature both locally and globally after having the advantage of nearly 6 decades of marketing milestones.

**Bluefin Seafood Export Inc.**

Name of Owner: Mr. Helenorino T. Morales

Address : 1008 Mega Plaza Bldg., ADB Avenue, Ortigas Pasig City

Tel. : +632 687 7074

Fax : +632 687 2947

Email : [bluefinseafood@yahoo.com](mailto:bluefinseafood@yahoo.com)

Website : <http://www.bluefineexport.com>

Products/Services: Seafood Export

**Overview and Success Stories:**

Founded in 2000, Bluefin Enterprise started its operations with only one employee selling its first 500 kilos of fresh fish to domestic market. A year later, it opened its first station in Zamboanga City, employing an additional 10 more employees. Its main products were fresh Octopus and fresh fishes. After capturing the domestic market for more than two years, Bluefin Enterprise expanded its market and started exporting its products to international markets while at the same time employing food technicians who developed new products for international standards.

Bluefin Seafood Export Inc. pioneered the production of frozen HGT Sardines to EU, the first and only company that sells frozen sardinella to Spain. Its first container of frozen Octopus was also shipped to United States of America.

BSEI continues to expand its product lines and market shares penetrating markets in Australia, Malaysia, Indonesia, Hong Kong, China, France, Portugal and Italy.

BSEI opened its new processing plant in Manila for value added products and is a recipient of Best Manufacturer and Exporter of Seafood Products.

E-mail : [danilynsmail@yahoo.com](mailto:danilynsmail@yahoo.com)

Website : [www.danilyns.com](http://www.danilyns.com)

Products/Services: Furniture

**Overview and Success Stories:**

Founded in 1991, Danilyn's Enterprises, Incorporated gave new standards in modern furniture fabrication and manufacturing. It has set an easier way for designers in realizing furniture designs from sketches and specifications without the need for full sizing and prototyping at designer's expense.

Danilyn's developed a standard procedure to perfect a given design into reality with ease from the clients' end. Such procedure that has been emulated by other manufacturers until this day.

Not only with furniture, Danilyn's also professionalized drapery and curtain making in the country. Through the years, they accumulated techniques and materials to fabricate window treatments of any kind as the client demands. It is also with continuous learning and exposure that these products are up-to-date to the current fashion in window dressing.

Among the soft furnishings for homes, together with curtains, Danilyn's also developed beddings and pillow making, Danilyn's skilled workers and sewers' pillow cases and bedcovers are sure of distinct quality as compared to the off the rack ready made beddings.

Through the years, Danilyn's boasts an impeccable list of clients. Danilyn's has seated heads of corporations and top designers. Their draperies dressed the windows of Malacañan Palace to Shangri-La. Through their years of service, their products graced the best lifestyle stores to the residences of personalities to offices of Philippines' biggest corporations.

## Davao Oriental Coco Husk Social Enterprise, Inc.

Address : San Isidro, Davao Oriental

Mobile : +639 28 552 6244

### **Overview and Success Stories:**

DOCHSEI was established by Unlad Kabayan as a business incubation project in 2004 in the municipality of San Isidro, Davao Oriental Province, on the Philippines island of Mindanao. It was established to improve the livelihoods of marginalized sectors and contribute to economic growth in the municipality. Its mission was to generate employment and increase the income of coconut farmers. Furthermore, it was designed to provide opportunities for Filipino migrant workers to invest their remittances, not only for profit, but in a way that would provide social benefits to the broader community. The plant was established in partnership with a local NGO, farmers, fishers and the Muslim community. While Unlad Kabayan provided expertise in social enterprise development and funding to support the establishment of the plant, office and equipment, Kalumonan gifted land for the production site and counterpart funding. Most of the financial support has been sourced from foreign donors including Christian Aid, the Inter-church Organization for Development Cooperation (ICCO), and the CARE's Canada Fund for Local Initiatives (CFLI), but some funding was donated locally. San Isidro was an ideal location for a coconut husk processing plant, not only because of the poor economic conditions in the municipality, but also because it was the number one coconut producing province in the Philippines and so had an abundant supply of coconut husk.

In addition to the aim of generating economic benefits for the community, DOCHSEI was also established as an environmentally friendly enterprise. Before it was established, coconut husk was a waste product of the local copra industry, clogging local creeks and rivers and washing into the ocean, killing fish, coral and other marine life. DOCHSEI provided a way for farmers to make money from this waste, turning it into coco fibre used for twine, erosion control matting, flower pots, hats, bags, wall decorations, door mats and mattress filling. Today the plant is producing fibre that is exported to China and used in car seat upholstery and mattress making; geo-netting for the growing national market of local governments who use it for erosion control along roads and river channels; and handicrafts for the local market.

## Gemwood East Trading Corporation

Name of Owner: Marlon M. Ocampo

Address : Unit 102 Emerald Place Bldg., 604 Shaw Blvd., Pasig City

Tel. : +632 994 9984

Fax : +632 687 2826 local 107

## GQ Cutlery

Address : #153 Brgy. Palacpalac, Pazzorubio, Pangasinan

Tel. : +6375 566 2329

Mobile : +63918 611 9573; +63927 934 4408

### **Overview and Success Stories:**

GQ Cutlery was established in 1980. This company is a major producer of around 200 different models of tactical blades, swords, knives, axes and samurais used by armed forces, collectors, martial arts club/school in movies and chefs.

Most of its products have been marketed to Europe, Russia and the Philippines.

## Hi-Las Marketing Corporation

Name of Owner: Mr. Roberto Amores

Address : Avocado Road, Special Economic Zone, FTI Taguig City

Tel. : +632 838 4941 - 42

Fax : +632 838 4940

Email : [info@hilasmc.com](mailto:info@hilasmc.com)

Website : <http://whilasmc.com>

Products/Services: Fruits and vegetables

### **Overview and Success Stories:**

Hi-Las Marketing Corporation is a pioneer in the Philippine fruit and vegetable industry. Founded in 1976 by Mr. Roberto C. Amores, his passion for the Philippine super mango propelled its growth from a local fruits and vegetable trader to one of the country's highly diversified grower, exporter and processor, backed by more than 30 years of experience and a group of satisfied international customer-partners in Japan, Korea, USA, Germany, UK, and Hong Kong, among others.

Hi-Las' Philippine super mangoes undergo extensive tree-to-table processes to maintain its natural highly nutritious and flavourful characteristics and ensure safe eating quality. The company implements Good Agricultural Practices (GAP) in all its accredited farms that make up its nationwide network of supply for Hi-Las mangoes and vegetables, effectively regulating the use of chemicals from flowering to harvesting, with consistent monitoring of traceability in every kilo labelled under the Hi-Las brands.

## Ilocos Food Products

Address : Brgy. Taleb, Bantay, Ilocos Sur

Mobile : +63915 390 3442

### Overview and Success Stories:

Ilocos Food Products (IFP) was established in 1990 producing and distributing Ilocos delicacies such as sweet potato chips, basi (sugar cane wine), banana chips, bibingka, polvoron, and vinegar, among others.

Today, IFP is a leader in Ilocano delicacies feeding a widening customer base in the Philippines, Australia, Canada, Guam, Hong Kong, Japan and Singapore with the following product lines:

Healthy Snack Foods: Chicacorn, banana chips, camote chips, roasted peanuts, squash pancit canton, macaroons, bibingka (rice cake), dried mango and polvoron.

Tropical Wines: Sugarcane Wine (Basi), Primera Basi, Duhat Wine, Tamarind Wine, and Exotic Tropical Fruit Wine.

Condiments: Iloko Vinegar and bagoong (shrimp paste).

So far, IFP chomped its way to the "Top Seller in Processed Food Sector, MEGMA (1999 & 2001), and received Plaque of Recognition as Regional High Value Commercial Crop Processor, Gawad Saka 2001-2002. In 2008, the Department of Science and Technology (DOST) commends the effort of the fifty individuals who made it to the prestigious 50 Great Men and Women of Science Award. The award is part of the Golden Anniversary Celebration of the Department and aims to acknowledge the awardees' significant contribution in the development of science and technology for the past 60 years.

**Islandwide Corporation**

Name of Owner: Mr. Stephen L. Gan

Address : 4/F Islandwide Center, #76 Valencia St., Quezon City

Tel. : +632 725 7011; 725 7008; 723 7086; 391 5862

Fax : +632 723 2321

Email : [islandwide@mindgate.net](mailto:islandwide@mindgate.net)

Website : [www.islandwidecorp.com](http://www.islandwidecorp.com)

**Overview and Success Stories:**

Established in 1972, the company has evolved through the years into a trusted and reliable supplier satisfying the needs of the food and personal care industries.

Islandwide Corporation has invested in a Research and Development applications laboratory to assist its client with product formulation and technical problems. It has a fully-climatic warehouse to store temperature-sensitive ingredients. It has also established a buying office in Shijazhuang, an industrial hub near Beijing, China. This office is responsible for establishing relationships only with reliable suppliers and to see to it that shipments comply with world class standards and specifications.

**Lao Integrated Farms, Inc.**

Name of Owner: Mr. Benjamin R. Lao

Address : 17<sup>th</sup> Floor Unit 2B Robinson's Cybergate Center Tower 3, Edsa cor. Pioneer Street,  
Mandaluyong City

Farm Site : Eman, Bansalan Davao Del Sur

Tel. : +632 470 7375

Mobile : +639 077 758721

Email : [laointegratedfarm@yahoo.com](mailto:laointegratedfarm@yahoo.com)

Products/Services: Coconut sugar/syrup

**Overview and Success Stories:**

The farm is basically a goat's project under coconut. It has been considered that goat manure is a good source of organic fertilizer for chlorotic and less productive coconut trees. Later the farm indulged in the production of high value commercial crops. The farm is used in indigenous/ biological control and organic farming.

Value adding has been given special attention particularly the production of coconut sap based products such as coconut sugar, coconut syrup, cacao with coconut sugar, ginger brew (salabat), sweet and spicy seasoning and many more.

The farm has been recognised to generate employment in the neighbourhood, as it employs men and women to do the processing activities. Prior to its incorporation on November 2009, it has a work force of eighteen 18 regular employees and thirty (30) suppliers of toddy. In February 2010 the number increased to twenty-five (25) and fifty-five (55) of toddy suppliers. Likewise, the farm serve as model among other farmers, both from the locally and neighboring places, especially in value-adding of perishable products and farm diversification. We cater to an average of five-hundred (500) visitors every month.

**Merlo Agricultural Corporation**

Name of Owner: Jose Mercado

Address : #32 San Carlos Drive Mataas Na Lupa Lipa City, Batangas 4217

Tel. : +6343 756 1716

Fax : +6343 756 3071; 756 2816

Email : [jhm459@gmail.com](mailto:jhm459@gmail.com)

Products/Services: Coffee shop and coffee trading (raw coffee beans, roasted beans, ground coffee)

**Overview and Success Stories:**

On Feb. 17, 1978 Merlo Agricultural Corp. was formed in place of Merlo Enterprises. Merlo's operations have diversified in the late '70s and early '80s. Together with the broiler processing and the veterinary product distribution, vertical integration was done with the establishment of a swine farm.

Coffee trading was done locally, supplying major manufacturers of instant coffee like Nestlé and General Milling Corp. With a huge potential for coffee, Merlo grabbed the opportunity to become one of the top coffee exporters in the country. Today, the Merlo Group is involved in two major businesses: supplying veterinary and animal health products to the livestock market, and supplying coffee as beans and beverage.

Merlo Agricultural Corporation is also the producer of Café de Lipa brand. It has been among DTI-Batangas busiest One Town One Product (OTOP) micro, small and medium enterprises (MSMEs). It is also a major supporter of the Barako Coffee Fest of Lipa City and has participated in the Center for International Trade Expositions and Missions (CITEM) International Food Exhibit and National Trade Fair.

**Nesic Philippines, Inc.**

Name of Owner: Ms. Marirosana Sabularse

Address : 2/F Eurovilla 2 Bldg., VA Rufino St., Salcedo Village, Makati City

Products/Services: Telecommunications

**Overview and Success Stories:**

NEC Corporation found it essential to have a company that would be dedicated to the construction of telecommunication networks and systems that brought about the creation of NEC Network and System Integration Corp. (NESIC JAPAN) in 1953.

With technological advancement and market growth in the field of computers and communications, the scope of its business has expanded to cover system integration and support for information network systems and computer and communication products.

As the overseas businesses have naturally grown throughout the years, NESIC, Ltd. (Japan) established several branches and subsidiaries to serve the requirements of the different projects worldwide and in 1991, NEC System Integration and Construction (NESIC) Philippines, Inc. was created.

Since its formation in 1991, NESIC Philippines has consistently followed the path of positive developments and innovative approaches to telecommunications and information technology as supported by NESIC Japan.

## SAGREX Foods Inc.

Address : Km. 20, Jentec Compound, Tibungco, Davao City

Tel. : +6382 234 0963

### **Overview and Success Stories:**

Southern Agro Export Corporation (SAGREX) was registered with the Securities and Exchange Commission (SEC) and started business in Davao City in January 1980. It started out as a trading and export company, buying and selling rice and corn, coffee, copra and other agricultural products; exporting castor seeds, cottonseeds and cattle feeds such as Ipil—ipil leaves and cassava chips. It evolved into a diversified company, distributing GROW MORE NPK premium foliar fertilizers and LIQUID natural organic micronutrient chelates.

In 1994, SAGREX ventured in distributing E-WHA P.E. Foam Products in Davao City. After successfully introducing P.E. Foam as cushioning pad for export of fresh Cavendish banana, SAGREX in partnership with E-WHA Foam established the first P.E. Foam manufacturing plant for Visayas-Mindanao in Davao City.

On May 29, 2000, the SEC approved the change of its corporate name from Southern Agro Export Corporation to SAGREX CORPORATION.

In July 2002, due to increasing market demand on Packaging and Insulation, SAGREX built its own factory building at 2,800 sqm property in Dasmariñas Techno Park, Dasmariñas, Cavite. Ordered a bigger P.E. Foam extruder from Korea, Betafoam Corporation was formed.

In 2002, SAGREX CORPORATION was appointed by RB Fields of Malaysia as exclusive distributor. in the Philippines of its complete line of sprayers. It successfully introduced to the market 3-brands of Matibay Sprayers, Junior Matibay, Standard Matibay the Super Matibay Knapsack Sprayer. It also developing truck mounted boom sprayers to address the need of banana plantations of alternatives to the aerial sprayers for SIGATOKA control. It successfully launched its own SAGREX truck mounted sprayers in 2004, where it was able to pass the test of Del Monte and Lapanday SIGATOKA Banana spraying standards.

In 2004, SAGREX Corporation started a partnership with DOST XI to develop the process to extend the shelf life of Philippine Native “Saba” banana by blast freezing. In May 2005, SAGREX put up an IQF Blast freezer to process microwavable frozen banana and banana fries for export. A new company SAGREX FOODS INC. was registered with the SEC in October 2005.

## Singapore

### Ascent Solutions Pte Ltd

Address : 9 Jurong Town Hall Road #02-54 iHUB Singapore 609431

Tel. : +65 96800765

Email : [cklim@myascents.com](mailto:cklim@myascents.com)

#### **Overview and Success Stories: (Innovation in Process)**

Ascent specializes in Electronic Cargo Security Tracking System, iSPOT (Integrated Security Portal) is an end to end solution covering hardware involving GPS, GPRS, Satcom and RFID technology; middleware and application portal. iSPOT's slogan is 'No Blind Spot' and it is also the company's mission in providing affordable, state-of-the-art continuous Electronic Cargo Security and Sensor based Tracking System.

Intelligence-driven risk management is one of the cornerstones of the "Customs in the 21st Century" strategy forming the basis of WCO's forward thinking. Customs around the World are embarking on the use of electronic security and surveillance devices and iSPOT is the ideal platform to provide secure corridors for the movement of bonded cargo between free trade zones and export processing zones.

Ascent has a very close relationship with several Customs of the World including Tanzania Revenue Authority, Kenyan Revenue Authority, Thai Customs, Indonesian Customs, China Customs etc.

iSPOT is used by Defense Forces to track some of the most advanced military assets like ammunitions, tanks, armor personnel carriers, mobile artillery guns, combat bridging equipments and combat engineering vehicles. It provides an audit trail of the transportation of these military assets from base camps to the theatre of operation or training ground. iSPOT is also used for the surveillance of hazmat cargo; security of bulk liquid tanker used in the transportation of fuel; in anti-piracy, anti-smuggling, anti-counterfeiting of bonded cargoes like cigarettes and alcohol.

#### **Overview and Success Stories:(Innovation in Process)**

Company provides a cleaning system that allows 'on-line' maintenance of tubular heat exchange systems, utilizing a number of 'elastomeric balls' in the fluid circulating in the tubes of the heat exchange system.

HVS has just completed major projects for SMRT and recently signed an MOU with Sumitomo Corporation.

**Histoindex Pte Ltd**

Address : T11A, Level 4, 500 Dover Rd, Singapore 139651

Tel. : +65 90927910

Email : [gideon.ho@histoindex.com](mailto:gideon.ho@histoindex.com)Website : [www.histoindex.com](http://www.histoindex.com)**Overview and Success Stories: (Innovation in Process)**

HistoIndex provides revolutionary rapid imaging solutions for fibrosis and cancer treatment assessment. The technology aims to simplify and improve diagnosis of liver fibrosis through delivering high resolution, stain-free and quantitative 3D data for visualising and staging fibrosis. Such critical information is presently unavailable to pathologists using existing imaging techniques. HistoIndex's products enhance accuracy and speed of assessment as the sample tissue is left untainted by existing colour-staining method and reduces discrepancies in manual, subjective diagnosis.

In the past few months, HistoIndex (HI) has been successful in engaging their initial customers, installing its first few commercially ready Genesis units at partner sites. The team has had a global focus from day one and have exhibited at global medical conferences, such as Medica. Such exhibitions have generated good leads for purchases of the Genesis units across North America, Europe and Asia. Other than relying on leads, the company has also engaged distributors around the world. In recognition of their efforts, HI was featured in The Straits Times and The Business Times, and won the BioSpectrum "Emerging Company of the Year-2012" Award.

**Mobile Credit Payment Pte Ltd**

Address : 60 Alexandra Terrace, The Comtech #09-10, Singapore 118502

**Agro-Genesis Pte Ltd**

Address : 391B Orchard Road #23-01 Ngee Ann City Tower B, Singapore 238874

Tel. : +65 67330867

Fax : +65 67330967

Email : [email@agro-genesis.com](mailto:email@agro-genesis.com)

Website : [www.agro-genesis.com](http://www.agro-genesis.com)

**Overview and Success Stories: (Innovation in Process)**

Agro Genesis is a science-based agribusiness company that supplies innovative, environmentally-friendly crop inputs and specializes in agriculture consulting services. Its unique value proposition is a one-stop agribusiness solutions provider for Asian agriculture.

The company's patented Micro Suspension Technology produces cheaper, better, safer and sustainable fertilizers, a unique advantage in the global US\$58 billion fertilizer market. Its proprietary G-Farm crop production System offers crop-specific, best-in-class sustainable farming practices to increase crop yield and quality for growers.

In 2008, Agro Genesis was the honoured recipient of the competitive Technology Commercialisation Award conferred by the Singapore government (Spring Singapore). In 2009, the company was nominated for the Innovation Award at PotatoEurope, the world's largest international potato event held in the Netherlands. It also had the dual honour of being the only Asian company nominated after a rigorous selection process by an international committee.

Since the commercialization of its products in several countries, the company has seen more than 100% revenue growth year-on-year. The company is also aggressively replicating its G-Farm crop production System across farms and plantations within Asia. Sales to Singapore golf courses have increased significantly year-on-year, a demonstrable affirmation of the company's products and services.

Website : <http://www.gatekeeperlabs.com/index.html>

**Overview and Success Stories: (Innovation in Products)**

Founded in 2009 by Joseph Ng, Gatekeeper Laboratories provides solutions to wean computers and other hardware from their reliance on heatpipe cooling. It has developed a next generation cooler for the datacenter/server markets. With our patented enhanced boiling two-phase coolers, hot spots on server CPUs are more efficiently dissipated. This allows datacenters to reduce air-conditioning (i.e. raise ambient room temperatures) without overheating the CPUs, which in turns translates into massive electricity savings. Gatekeeper Laboratories is supported by its exceptional IP and possesses several patents with more filings in its roadmap. In 2010, we are a recipient of the prestigious Spring Singapore Technology Enterprise Commercialisation Scheme (TECS) Proof of Value grant, and the coveted New Emerging Technology and Overall Judges' Choice awards from the Singapore Infocomm Technology Federation (SiTF).

Our clients come from a diverse industries including electric vehicles, IGBT, solar and custom electronics, who are looking for air-cool high heat load applications of several kW at intensities of 50-100W per sq centimeter.

**BioMers Pte. Ltd**

Address : 22 Sin Ming Lane #07-80, Midview City, Singapore 573969

Tel. : +65 67795909

Email : david@biomers.com

Website : <http://www.biomersbraces.com>

**Overview and Success Stories: (Innovation in Products)**

BioMers is a Singapore-based biomedical sciences company established in 2005. The company's flagship product is SimpliClear® - the world's only completely clear, customised orthodontic braces solution. This is based on highly-advanced materials research in the area of non-metallic polymer technology, from the National University of Singapore. SimpliClear® provides an effective way to straighten misaligned teeth, with the advantage of being nearly invisible.

To date, BioMers have recruited 130 orthodontists in the U.S., Spain and Singapore, and some 500 patients have benefited from the SimpliClear® solution. BioMers has patented its manufacturing platform technology in 17 countries, including the US and Europe. In addition to orthodontic applications, BioMers' underlying technology has other biomedical applications, in fields such as imaging and orthopaedics. BioMers has received investments from Nanostart Asia (a subsidiary of German-based Nanstart AG), as well as support from SPRING Singapore, the Economic Development Board and NUS Enterprise. The company's ISO certified manufacturing facility and HQ are based in Singapore, with a sales office in the U.S.

**PigeonLab Pte Ltd**

Address : 8 Prince George's Park, Singapore 118407

Tel. : +65 98187047

Email : [joon@pigeonlab.com](mailto:joon@pigeonlab.com)

Website : <http://www.pigeonhole.sg/>

**Overview and Success Stories: (Innovation in Products)**

Pigeonhole Live has an intuitive platform-agnostic real-time conference Q&A and data collection tool. To date, Pigeonhole Live has been adopted by numerous reputable conferences/events in Singapore, US, Japan, China and other countries. These include -but are not limited to - industry conferences, corporate events, political campaigns, classrooms, and national TV. It has revolutionized both audience participation as well as information gathering by the event organizers.

With Pigeonhole Live, every audience at the conference is empowered to ask and vote for the questions that interest them. This brings democracy and order to the often hit-and-miss Q&A sessions. Moderators and speakers will also be able to accurately address the specific concerns that the audience have, instilling effective and highly engaging exchange of conversations between the speakers and the audience.

Incorporated since October 2010, Pigeonhole Live has been featured in various media in the United States and Singapore, such as Fast Company (USA), The Straits Times (Singapore), Channel NewsAsia (Singapore), TODAY (Singapore), SgEntrepreneurs (Singapore) and more.

**KAI Square Pte Ltd**

Address : 33 Ubi Avenue 3, #07-58 Vertex Tower A, Singapore 408868

Tel. : +65 66348809

Fax : +65 66348839

Email : [contact@kaisquare.com](mailto:contact@kaisquare.com)

Website : <http://www.kaisquare.com/>

**Overview and Success Stories: (Innovation in Products)**

KAI Square is an innovative company specializing in providing high-tech surveillance and monitoring solutions. The team has been setting the trend in the Singapore security and surveillance market with its state-of-the-art surveillance system, the KAI Square Unified platform. With the support of SPRING, KAI Square has successfully expanded our business development regionally and globally.

**Commercialisation:**

- With its unique business model and expertise in the surveillance industry, KAI Square has achieved steady growth. Revenue has doubled year-on-year, from less than S\$500,000 in 2009 to more than S\$1 million in 2010, with a CAGR of 102% from 2007 – 2010. Expected revenue for 2011 is S\$3 million.
- KAI Square is well regarded as the next generation high-end technology provider to telecommunication companies and system integrators. Two years ago, KAI Square became one of the first movers in cloud technology. Recognising the need for a high degree of mobility, it developed the KAI Square Surveillance, KAI Square Media, KAI Square Health and KAI Square Environment solutions which ride on the KAI Square Unified Platform to integrate different solutions for clients.
- Its growing list of clientele comprises fleet operators, the police force and businesses in the healthcare, security and logistics sector. This includes SMRT, SingHealth, Standard Chartered Bank and the Ministry of Home Affairs. It has also secured clients regionally in Beijing, Taipei and Bangkok.
- Leveraging on its local success, KAI Square ventured overseas in 2010, setting up marketing offices in Beijing, Tianjin and Taipei. It will continue to grow its global market presence by deploying its technology to seven new cities.

**Gajah International Pte Ltd**

Address : Blk 51 Ayer Rajah Crescent #04-11/12, Singapore 139948

Tel. : +65 67550586

Fax : +65 67791685

Email : [marketing@gajah.com.sg](mailto:marketing@gajah.com.sg)

Website : <http://www.gajah.com.sg/>

**Overview and Success Stories: (Innovation in Products)**

Gajah International is a Product Design & Development Company based in Singapore. It was established in 2004 focusing on the development of portable multimedia devices. Today Gajah's capabilities extend beyond hardware development of multimedia devices; its interdisciplinary teams of hardware engineers, designers and programmers are dedicated in the development of hardware, software applications and online content platforms.

Gajah is a total solution provider that engages in the design and development of OEM/ODM consumer electronic products, including eBook Readers, Tablets, Audio Speakers, MP3/MP4 Players and Mobile Device Accessories, as well as a provider of e-content management and delivery system. Gajah undertake the entire process of product development from industrial design, electronic design, mechanical design, firmware development to graphic user interface design, bringing an idea from conception to reality.

Over the years, Gajah has established strong partnerships with more than 100 top branding in consumer electronic from over 40 major countries in the world. This has attracted many other chipsets and technology partners to fully support us as we can shorten the time-to-market for new ideas & new technology, as whatever products we develop, we already have ready partners to bring it to market.

Gajah also never stop participating competitions globally and our creativity and innovations are always recognized by the market. Gajah has won more than 10 awards from year 2010 to 2012, and recently we just won 2 design & innovation awards from Computex. As a market leader, we will never stop our R&D on improving in what we do best in order to lead the market trend.

**FriarTuck Pte Ltd**

Address : 10 Science Park Road The Alpha #03-02, Singapore 117684

Tel. : +65 67766764

Fax : +65 67760120

Email : [sales@friartuck.net](mailto:sales@friartuck.net)

Website : [www.friartuck.net](http://www.friartuck.net)

**Overview and Success Stories: (Innovation in Products)**

FriarTuck enables every enterprise to achieve optimal workforce performance quickly and affordably with robust out-of-the-box functionality and straightforward, rapid implementation.

Leading enterprises understand the need to match labor supply with customer demand. At the same time, they need to balance their variable staffing requirements with labor costs and ever tightening budgets. Until now, the challenge of ensuring optimal staff deployment required highly customized software that was difficult to implement, frustrating to use, and extremely costly. As a result, many enterprises have minimized or scaled back their use of workforce management applications - or have avoided them entirely. In many cases, enterprises rely on manual processes and cumbersome systems that put customer experience, employee satisfaction, compliance and FriarTuck enables every enterprise to achieve optimal workforce performance quickly and affordably with robust out-of-the-box functionality and straightforward, rapid implementation.

FriarTuck's intelligent system OWM enables enterprises to improve manager productivity by 50-75% through reduction in time spent on managing workforce and staff productivity by 5-15% by optimally matching supply to demand.

**Grandwork Interior Pte Ltd**

Address : No. 4 Ang Mo Kio Industrial Park 2 Ang Mo Kio Ave 12, Singapore 569498

Tel. : +65 67327320

Fax : +65 67328460

Email : [grandwork@grandworkinterior.com](mailto:grandwork@grandworkinterior.com)

Website : [www.grandwork.com.sg](http://www.grandwork.com.sg)

**Overview and Success Stories: (Innovation in Process)**

Every successful company has its own particular beginning. For this company, life began in 1984, as a small renovation firm. Due to sheer vision and diligence, the see of grandiose accomplishment was laid in September 1995 when Grandwork Interior was formed. The brain-child of Mr. Jay Chiu was later cemented as Grandwork Interior Pte Ltd in April 1996.

The company's specialties include interior fit-out works, restoration and custom-made furniture for both minor and large scale projects. The most significant business innovation initiative in the company since 2004 is the manufacture of ecologically-friendly furniture and interior fittings, which has propelled Grandwork into major international markets.

Our vision is to be the leading global producer of premium and ecologically-friendly furniture and interior fittings, so as to bring about a healthier and better quality of life for discerning customers.

And Setting of new standards in the industry through innovation is Grandwork mission. We constantly strive to invent and improve product offerings through the research and development of new technologies, processes and products.

**Star Array Pte Ltd**

Address : 18 Nanyang Drive #02-223 Innovation Centre, Singapore 637723

Tel. : +65 62679755

Email : [tgong@star-array.com](mailto:tgong@star-array.com) or [jche@star-array.com](mailto:jche@star-array.com)

Website : [www.star-array.com](http://www.star-array.com)

**Overview and Success Stories: (Innovation in Products)**

Star Array is a start-up company commercializing a PCR array technology developed at the Nanyang Technological University. This technology enables the determination of an entire infection profile in a single run. Initial products will include panels for respiratory diseases and diarrhea.

Under Singapore SPRING TECS POV scheme, Star Array Pte Ltd, based on the proven concept and established Intellectual Property, have been developing an automated and integrated sample preparation and PCR array system, which has demonstrated the potential to revolutionize current infectious disease detection capability from a lab based operation to a distributive networked operation. The detection system will be launched in late 2012, which would impact critical applications of high throughput biological research, bio-defense, health screening during infectious disease outbreak, and pharmaceutical industry, etc.

Even though with only one year of development, Star Array has successfully generated sales and raised fund from overseas private investors to support its commercialization of the integrated genetic testing instrument and digital PCR chips which is derived from the POV project.

**Medlinx Acacia Pte Ltd**

Address : Innovation Centre, Block 1 Unit 206 16, Nanyang Drive, Singapore 637722

Tel. : +65 97558273

Email : [rongquan@mdlnx.com](mailto:rongquan@mdlnx.com)

**Overview and Success Stories: (Innovation in Products)**

Medlinx Acacia was incorporated in 2005 to develop and commercialize a new generation of hernia mesh that solves many of the current unmet needs in hernia surgery. Its first product, the Medlinx Surgical Mesh system, strengthens tissue defects post-operation, with the ability to release drugs locally to accelerate healing.

Company successfully completed requirements for the FDA submission of Medlinx Surgical Mesh

- Successful worldwide patent application. Filed in the US, European Union, China, Japan and Singapore
- Continued development of 2nd and 3rd Generation products

**iTwin Pte. Ltd.**

Address : 20 Ayer Rajah Crescent #08-27 Technopreneur Centre, Singapore 139964

Tel. : +65 96981476

Email : [Kal@iTwin.com](mailto:Kal@iTwin.com)

Website : [www.iTwin.com](http://www.iTwin.com)

**Overview and Success Stories: (Innovation in Products)**

iTwin Pte. Ltd. is a spinoff from A\*STAR's Institute for Infocomm Research and has developed iTwin – a user-friendly device for connecting any two online computers, anywhere in the world, safely and simply, and thus providing remote data-access. Unlike storage offerings with space limitations and privacy risks, iTwin's award-winning product comprises two identical halves that need only be plugged into two computers for them to be instantly connected and secured by hardware-based encryption.

iTwin has been recognized for both its technological and design innovations.

- Red Dot Product Design Award 2011
- Popular Science 'Best of What's New' 2011 Award
- CES 2012 Innovations Award
- Frost & Sullivan's New Product Innovation Award 2010
- Selected for the prestigious TechCrunch50 Event

Established in Singapore, June 2006, INEX Innovations Exchange Pte Ltd focuses on innovative molecular diagnostics in women's healthcare and prenatal space. INEX, through its strong relationships with institutional research programs, develops and distributes novel medical devices and diagnostics throughout the world.

In the women's health care space, INEX is the distributor (in South East Asia and India) of OvPlex™ the novel multi-marker early detection test for ovarian cancer. INEX is also currently developing OvaCis™, a rapid intraoperative diagnostic test for Epithelial Ovarian Cancer which returns a high negative predictive value of 99% in as little as 5 minutes.

In the prenatal space, INEX is the distributor of FlashFISH™ same day aneuploidy test for fetal abnormality. INEX is also the exclusive licensee of next generation Non-Invasive Prenatal Diagnostic test utilizing DNA from Fetal Cells isolated from Maternal Blood.

**Endomaster Pte Ltd**

Address : Innovation Centre Block 1 Unit 201A 16 Nanyang Drive, Singapore 637722

Tel. : +65 97968155

Email : [msjphee@ntu.edu.sg](mailto:msjphee@ntu.edu.sg)

**Overview and Success Stories: (Innovation in Products)**

Endomaster was incorporated in 2011 to develop and commercialize the MASTER system, a unique robotic assisted technology that significantly improves the safety and efficacy of complex gastrointestinal surgical procedures. MASTER is the first of its kind to perform endoscopic robotic surgery and will positively impact patients, clinicians and hospitals. The main advantage over currently available surgical robotic systems is that it uses the patient's natural orifices to access the organ. The system promotes 'scarless surgery', which may be a paradigm shift from 'keyhole' surgery. This will reduce patient discomfort as well as the risk of any procedural or post-operative complications.

Plans to commercialize the world's first robotic endoscopy platform within 4 years. Led by a strong team of clinicians, engineers and experienced medical device professionals.

- Successful first-in-man trials on 5 patients in 2011 with short learning curve, and significant increase in procedural precision, and reduction in procedure time.
- Garnered worldwide media attention from international news agencies.

**Baldr Biosystems Pte Ltd**

Address : 28C Stanley Street, Singapore 068737

Email : [jpipper@gmx.com](mailto:jpipper@gmx.com) / [tsankar@yahoo.com](mailto:tsankar@yahoo.com)

Website : [www.baldrbiosystems.com](http://www.baldrbiosystems.com)

**Overview and Success Stories: (Innovation in Products)**

Baldr Biosystems is a start-up company commercializing the bCycler, an innovative, battery-operated qPCR thermocycler. This technology platform, jointly developed at the Institute of Bioengineering and Nanotechnology and National University of Singapore, will be positioned for the point-of-care (POC), especially in developing and emerging markets

**Ayoxxa Living Health Technologies Pte Ltd**

Address : 9 Engineering Drive 1 Block EA, #03-12, Singapore 117576

Email : [info@ayoxxa.com](mailto:info@ayoxxa.com)

Website : [www.ayoxxa.com](http://www.ayoxxa.com)

**Overview and Success Stories: (Innovation in Products)**

AyoxxA Living Health Technologies is a start-up company commercializing a novel technology platform developed at the National University of Singapore. This technology enables the measurement of many different proteins in a single drop of blood or cell culture medium. Results are essential for research and medical diagnostics of disease markers.

**GCoreLab Pte Ltd**

Address : 21 Science Park Road The Aquarius, #03-20 Science Park II, Singapore 117628

Tel. : +65 67780328

Fax : +65 67780328

Email : [info@gcorelab.com](mailto:info@gcorelab.com)

Website : [www.gcorelab.com](http://www.gcorelab.com)

**Overview and Success Stories: (Innovation in Products)**

GCoreLab was incorporated in 2010 to develop and commercialize high performance thermal management solutions for the clean technology and electronics industries. Its first product, involves an oblique-fin micro-channel cooling technology for implementation in systems requiring high heat flux dissipation and good temperature uniformity, such as those in electric vehicles.

From CPU/GPU to power electronic cooling, GCorelab has demonstrated the effectiveness and scalability of its solution from small-scale microchip to large electrical vehicle. Currently, GCorelab is productizing a complete thermal management solution for a large EV bus company in China that can increase battery life by 40% and provide 42% in cost savings. By leveraging on patent pending solution to maximize the efficiency of the EV batteries, clients can reap significant economic and performance benefit from the cooling system.

We have also developed an effective way to mass-produce our produce that is economically for any EV or HEV producers. Further test beddings will provide us the needed platform to go into large-scale joint venture with our client.

Our client believes the installation of our product not only can enhance their battery life but also enables the use of the EV buses in all climate seasons. This is an important consideration as their buses are meant for worldwide exports in different temperatures and humidity

**SC Auto Industries (S) Pte Ltd**

Address : 51 Senoko Road, Singapore 758133

Tel. : +65 67582222

Fax : +65 62576931

Email : [sales@scauto.com.sg](mailto:sales@scauto.com.sg)Website : [www.scauto.com.sg](http://www.scauto.com.sg)**Overview and Success Stories: (Innovation in Process)**

SC Auto began its operation as a transport operator in 1981, with a fleet of privately owned school and charter buses in Singapore. Through our experience as an operator, SC Auto is well acquainted with the needs and requirements of bus owners, especially in the areas of maintenance and repair. Since 1992, SC Auto has diversified into bus design and body building.

Today, our operations have diversified into providing a one-stop solution service for bus-owners. Not only do we sell and manufacture buses, we provide hire purchase financing, vehicle insurance and claim services, accident repair and after sales service. Our current manufacturing facility is in Singapore.

Fax : +65 67536309

Email : [contact@epchem.com](mailto:contact@epchem.com)Website : <http://www.epchem.com/index.html>**Overview and Success Stories: (Innovation in Process)**

EPChem International Pte Ltd, is a Singapore-based marketing and distribution company, established in 1992. EPChem supplies special performance chemicals in the Asia Pacific region, dedicated to the area of wax and its related products.

EPChem has a diverse and comprehensive product range, and is committed to improving by continually introducing new, innovative and complementary products. With an experienced, dedicated and industry-focused marketing team armed with specialist product and applications knowledge, EPChem does not just meet the demands of the market but anticipates new trends and shares them with our customers.

We are the most comprehensive wax supplier in the whole Asia Pacific region, supplying products represented by the entire series of hydrocarbon chain lengths, in the form of wax and wax-like substances. EPChem has a strong regional presence, having operating companies in Singapore, Shanghai and Jakarta, under EPChem International, Shanghai EPChem and PT EPChem respectively. In addition, EPChem has a JV company in Bangkok, as well as representative offices in Kuala Lumpur and Ho Chi Minh City, which allow EPChem to better understand the unique challenges that face our customers in the Asia Pacific region. EPChem also holds regional distribution points in Singapore, Shanghai, Jakarta, Kuala Lumpur and Bangkok, serving the industries in South East Asia, as well as the Greater China region and beyond.

**Griffin Kinetic Pte Ltd**

Address : 9B Jalan Ampas, Singapore 329517

Tel. : +65 62748132

Fax : +65 62765206

Email : [enquiries@griffinkinetic.com](mailto:enquiries@griffinkinetic.com)

**Overview and Success Stories: (Innovation in Process)**

Established in 1988 and having gained a wealth of experience, Griffin Kinetic covers all logistical needs including air and sea freight forwarding, warehousing and distribution services. While the initial emphasis was on the movement of marine spares, experience gained from ship spares logistics has allow it to also provide outstanding service in delivering all genres of cargo. Over two decades, Griffin Kinetic has built up effectiveness and credibility through outstanding service and critical logistics solutions.

Griffin Kinetic has a clientele of more than 2,000 companies, a database of 8,500 vessels globally, and has delivered a cargo throughput of more than 25,000 metric tons annually. Guided by our company vision, mission and promise, we strive to uphold the highest level of customer satisfaction.

**Golden Bridge Foods Manufacturing Pte Ltd**

Address : 30 Senoko South Road, Singapore 758088

Tel. : +65 65729204

Fax : +65 67588580

Email : [bizdevpt\\_group@golden-bridge.com.sg](mailto:bizdevpt_group@golden-bridge.com.sg)

Website : <http://www.golden-bridge.com.sg>

**Overview and Success Stories: (Innovation in Products)**

Established more than 20 years ago, Golden Bridge started off as a small manufacturer specialising in traditional Chinese Waxed Sausages. As its Chinese Waxed sausages became well accepted by consumers, the business was expanded and Golden Bridge was established in 1993 to modernize and industrialise the manufacturing process and to produce a modern range of products.

We are proud to be an Enterprise 50 winning enterprise and the first Singapore meat processing plant to be ISO9001, 22000 and HACCP certified. Our plant and facilities are graded "A" by the Agri-Food & Veterinary Authority of Singapore (AVA), which distinguishes us from the rest of competition.

Currently, we have several hundred items to offer to our customers in different forms, including Chilled, Frozen, Dried and Shelf Stable products, to cover both Asian and European style ham and sausages. Our quality products can be found in all leading supermarket chains in Singapore and overseas via appointed distributors and partners. In 2009, our 100% owned subsidiary, Ellaziq Pte Ltd, was formed to allow us to cater to the halal sector in Singapore, and for export to our neighbouring and other key Halal markets.

**Tat Hui Foods Pte Ltd**

Address : 37 Quality Road Jurong, Singapore 618808

Tel. : +65 62611010

Fax : -

Email : [thf@pacific.net.sg](mailto:thf@pacific.net.sg)

Website : <http://www.tathui.com/index.php>

**Overview and Success Stories: (Innovation in Products)**

Incorporated in Singapore in 1986, Tat Hui Foods Pte Ltd is a leading manufacturer of instant noodles with its global brands - Koka, Sanwa and Yoodles – being exported to over 40 countries in Europe, Middle East, Canada, Asia and the Oceania.

In 1987, the company founder, Mr Lim Hi Lay embarked on the mission to take Tat Hui products to the international stage. First, the products were introduced to the Chinese grocery market in US, Europe and Australia. In the following years, Tat Hui started venturing into mainstream European and Middle Eastern markets and saw demand increase ten-fold.

The company's goal has always been to provide top quality food products and best value to its customers around the world. Over the years the company has stayed at the forefront of its industry through investing heavily into new production facilities, equipment and research & development. This led to the creation of fat-free instant noodles, noodle snacks, gluten-free rice noodles and high fibre instant noodles, with a diverse and exciting range of new flavours and preparations. All with a focus on 'health, taste and innovation'.

With its latest innovation, the company has again taken the instant noodle category to a new level. Containing the age-defying antioxidant, Anthocyanins, the Award-winning KOKA Purple Wheat Noodles combine the natural goodness of purple grain with 3 new, extraordinary and refreshing flavours, another 'first' in the category.

**Ha Li Fa Pte Ltd**

Address : 257 Pandan Loop, Singapore 128434

Fax : +65 67742010

Email : [sales@halifa-bobo.com](mailto:sales@halifa-bobo.com)

Website : <http://www.halifa-bobo.com/>

**Overview and Success Stories: (Innovation in Products)**

Ha Li Fa Pte Ltd was founded in 1987 and established in 1993. Since its inception, Ha Li Fa Pte Ltd, through its “BoBo” brand, has gained a firm foothold in local and international markets. Its logistic network and production processes are well developed to deliver high-quality products that cater to changing consumer tastes and demands. Being customer driven has always been at the core of the BoBo brand.

BoBo’s brand of fishballs and fishcakes is well known for its freshness, quality and the consumer trust it has developed over the years. Only the highest grade of Xi Dao and Yellow Tail fish are used, and all products are made entirely in Singapore. That is why in domestic Singaporean market, BoBo is always the market leader among retailers.

Product innovation has helped Ha Li Fa make an extensive variety of new products, including chicken cheese meat ball and ready-to-eat sausages. Product innovation, premium quality of raw material, food safety consciousness, and customer-centric business approach are the key success factors for Ha Li Fa’s overseas expansion in South East Asia, Middle East, East Asia, North America, and Australia.

Website : <http://chyechoon.com.sg/>

**Overview and Success Stories: (Innovation in Products)**

The history of Chye Choon Foods Private Limited has its roots dated back to the 1950's. We were first introduced to the local Singapore market as a small family business that operated as a sole proprietor under the name, Chye Choon Rice Vermicelli Factory.

Growth was the result of strong demand and we were fast making a name in Singapore as a major manufacturer of rice noodle and rice vermicelli. In 1978, we were incorporated as a private limited company and was named Chye Choon Foodstuffs Manufacturing (Private) Limited.

Through the following twenty over years of steady growth, we introduced automation and integrated into our existing factory. Our business also began to slowly diversify to include import, export and distribution of various types of rice, food starches, wheat flour, rice flour, sugar and cooking oil. In 2003, the company had its name changed to Chye Choon Foods Private Limited to reflect the company's diverse interests within the food business.

Today, apart from being known as a major manufacturer of rice noodle and rice vermicelli, we are also known as a major rice trader in Singapore. Our customers are broad-based ranging from food services, institutions, industrial, wholesalers, retailers, exporters, distributors, food manufacturers and to other business arena beyond food.

Being a 'Tasty Singapore' brand ambassador, our products are currently exported to many countries worldwide and are available in major supermarkets and restaurants in Indonesia, Thailand, Viet Nam, Philippines, Hong Kong, China, Taiwan, Japan, UAE, Lebanon, Russia, Germany, France, Italy, Netherlands, Spain, Sweden, U.K., U.S.A., Canada, Australia, New Zealand and more. Many of our products are certified by the Singapore Health Promotion Board of the Singapore Ministry of Health as 'Healthier Choice Products' and as well as being 'Halal' certified. Our factory has also been awarded the HACCP, ISO 9001 and ISO 22000 accreditations to meet the demands of the global complex marketplace. As a traditional food business, we take pride in how we have evolved over the years. We will continue to grow and hope to become a household name in many markets.

**Overview and Success Stories: (Innovation in Process)**

Befitting the vast land that it hails from, Chinese cuisine is broad in variety. Coupled with the exodus of the Chinese people to distant lands and assimilation with local culture, this variety has grown tremendously. But no matter how it changes through the course of history, Chinese cuisine in the right hands still tastes like heaven on earth.

As the hands that rule the wok in our restaurants, preserving such heavenly tastes is the Paradise Group commitment. We want to be an international diners' paradise for Oriental cuisine – one where gourmet menu meets good values, and tradition meets innovation. With this vision, we celebrate the many flavours of Chinese cuisine with seven distinct restaurant concepts as well as a catering arm, each revolutionary in their arena. From pleasing the finer palates of discerning clientele with our high end concepts - Taste Paradise and Paradise Pavilion, to the offering of signature dishes alongside popular Chinese dishes through our mid-market concepts like Canton Paradise, Paradise Dynasty, Seafood Paradise and Paradise Inn, and appealing to the young at heart with our casual café concept Kungfu Paradise, Paradise Group strives to fulfil the many appetites and segments of the local diners.

To maintain excellence in what we offer our diners, we believe in constantly improving, enhancing and innovating to provide exceptional value in all of our restaurant concepts to achieve the ultimate dining experience.

Aiming at a sensorial experience, each concept under our brand immerses the diner in an atmosphere that captures the many intriguing aspects of the Chinese culture. From the majestic backdrop of a dynastic era to the infectious charm of a traditional inn, the Paradise brand elevates the finer appreciation of Chinese culture through a holistic dining experience.

**Putien Restaurant Pte Ltd**

Address : 127 Kitchener Road, Singapore 208514

Tel. : +65 65096015

Fax : -

Email : [functions@putien.com](mailto:functions@putien.com)

Website : <http://www.putien.com/index.htm>

**Overview and Success Stories: (Innovation in Process)**

Good restaurants are a plenty in Singapore – but find one which couples excellent culinary standards with affordable prices? You have a winner. PUTIEN restaurant, a modest eatery specializing in Heng Hwa cuisine, offers an oasis of simple indulgences amid one’s daily bustle.

The Putien brand name has its roots traced to Putian, a beautiful coastal town located in the Fujian province of China. Surrounded by spectacular ocean views and majestic mountains, Putian is blessed with lush pastures and bountiful catches from the sea. Even as the locals have sampled the eight main Chinese cuisine types, nothing delights them more than uncomplicated and homely Putian fare – that which exudes rich flavours of back country and brings to mind corresponding attributes of simplicity and purity – inherent in local customs and culture. The atmosphere of warmth, sincerity and hospitality at Putien underpins an indispensable part of the Putian culture.

Friendly staff welcome patrons with profuse warmth and enthusiasm. A meal at Putien promises to satisfy the most discerning palate with wholesome home-cooked dishes prepared by dedicated chefs.

**Tung Lok Restaurants (2000) Ltd**

Address : 298, Tiong Bahru Road #14-01/04, Central Plaza, Singapore 168730

Website : <http://www.jumboseafood.com.sg/index.html>

**Overview and Success Stories: (Innovation in Products)**

The Singapore home grown seafood restaurant group was established in 1987 with its first restaurant located in the popular East Coast Seafood Centre.

After years of continuous effort in providing quality food and service, Jumbo Seafood has grown into a group of 6 restaurants serving live seafood prepared in familiar local and Hong Kong styles. The 6 outlets all offer distinctive menu features in addition to the regular award-winning signature dishes, so there's always something different to savour at Jumbo.

With a team of dedicated and innovative F&B professionals, our group of restaurants has won many service and gourmet awards presented by various esteemed organisations. At Jumbo, we strive to serve quality food at reasonable prices in a friendly environment.

**The Soup Spoon Pte Ltd**

Address : 22 Lorong 21A Geylang, Prosper Industrial Building, #09-01/02, Singapore 388431

Tel. : +65 67491161

Fax : -

Email : [customer@thesoupspoon.com](mailto:customer@thesoupspoon.com)

Website : <http://www.thesoupspoon.com/index.html>

**Overview and Success Stories: (Innovation in Products)**

The Soup Spoon opened its first retail outlet at Raffles City in June 2002. Soup loving university mates Andrew, Anna and Benedict saw that there were not many wholesome soup places around and decided to start their own.

They have since created a unique soup culture where soup can be enjoyed as a meal, striving to provide innovative and nutritious soups that make a wholesome meal and a divine culinary experience using only the freshest ingredients. The Soup Spoon has an array of scrumptious soups to suit your mood alongside tasty sandwiches, salads and sides to complete the meal. There are 16 outlets at the moment and they aim to continue making good soups without chemicals and artificial flavouring.

**Overview and Success Stories: (Innovation in Marketing & Channel Management)**

For the past 40 years, Lam Chuan Import-Export (Pte) Ltd has been a brand that is synonymous with the highest quality in laminate surface finishes, namely the high pressure laminates from Abet Laminati of Italy and Pionite Decorative Laminates of USA. We are the brands' sole agent and stockist throughout the ASEAN region.

Our Factory building commissioned in 1995 at 12 Sungei Kadut Way in Singapore represents yet another milestone in the history of Lam Chuan. It shows our growth from a small company located at River Valley Road to one currently managing materials worth millions with our very own in-house value-adding production facility.

Spearheaded by a highly people-oriented management team and with the acquisition of State-of-the-Art postforming, presses, edgebanding and productivity management technology, Lam Chuan is set to establish and maintain its position as the key high pressure laminates supplier and postformer in the industry.

With our commitment to Quality and New Capacity, Lam Chuan is poised to expand into overseas markets and valued clients can look forward to even better designs, finishes, quality, costs and service.

These achievements serve as a testimony to our corporate belief in innovation, dedication and drive for excellence towards a greater frontier in the next millennium.

**Superior Multi-Packaging Limited**

Address : 7 Benoi Sector, Singapore 629842

Tel. : +65 62683933

Fax : +65 62657151

Email : [general@smpl.com.sg](mailto:general@smpl.com.sg)

Website : [www.smpl.com.sg](http://www.smpl.com.sg)

**Overview and Success Stories: (Innovation in Products)**

Listed on the Singapore Exchange Main Board, Superior Multi-Packaging Limited (“SMP” or the “Group”) is an industry leader specialising in the production of metal containers and flexible packaging materials. Since inception in 1979, SMP has become a brand name in East Asia and South-East Asia with operations in Singapore, China, Viet Nam and the Philippines.

Our business lines include:

**• Metal Packaging**

SMP produces metal packaging in the form of high-quality pails and cans for the paint, chemical, petrochemical, marine and edible oil industries and also offers customized metal printing services. The Group currently operates various manufacturing locations and offices in Singapore, China, Viet Nam and the Philippines.

**• Flexible Packaging**

In Singapore, SMP also manufactures a wide range of customized flexible packaging materials for food and beverage, healthcare and pharmaceutical and other industries.

**Sunlight Electrical Pte Ltd (Member of Sunlight Group Hldg Ltd)**

Address : 1, Third Chin Bee Road, Singapore 618679

Tel. : +65 67419055

Fax : +65 67415587

Email : [info@sunlightgroup.com](mailto:info@sunlightgroup.com)

Website : [www.sunlightgroup.com](http://www.sunlightgroup.com)

**Overview and Success Stories: (Innovation in Design)**

Sunlight Electrical Pte Ltd (“Sunlight”) specializes in the electrical engineering and manufacturing of low voltage power electrical distribution and control switchboard systems.

Established since 1970, Sunlight builds her competency and technology around Siemens, Schneider, ABB, Mitsubishi & Hager. To stay relevant in the midst of rapid technology and changing industry requirements, Sunlight constantly develops, engineers and type-tests products and services to new international standards to suit varied and demanding industry requirements and expectations.

Sunlight also innovates and explores new technologies on LED lights & fittings and clean technology applications by working with established players and government agencies. Having vast experience in regional business operations like Singapore, Viet Nam and Malaysia, Sunlight is now expanding steadily to other ASEAN member countries and in Asia Pacific like Bangladesh and Middle-Eastern regions.

**Feinmetall Singapore Pte Ltd**

Address : 8 Boon Lay Way, # 11-16 Tradehub 21, Singapore 609964

Tel. : +65 63164544

Fax : +65 65155173

Email : [info@sg.feinmetall.com](mailto:info@sg.feinmetall.com)

Website : <http://www.feinmetall.de/index.php?id=home&L=1>

**Overview and Success Stories: (Innovation in Process)**

Feinmetall Singapore, set up in 2007, provides support to Feinmetall's regional customers, such as those from Thailand, Malaysia, the Philippines and Singapore. Feinmetall is your competent partner for reliable contacting of electronic components at the test room, and today is one of the largest manufacturers. Extensive know-how in precision engineering and micromechanical contact technology, permanent and successful product innovation, control of all necessary production processes and a deep-seated quality awareness with a zero-defect-strategy make Feinmetall one of the leading suppliers in the test equipment market. The product portfolio ranges from probe cards for wafer test, through interfaces for test systems, fixtures for ICT- and functional test, to an extensive programme of spring contact probes.

Feinmetall attributes the success it has achieved to strong technical capabilities which was developed through in-house research and development, good product / service mix offering which caters to differing needs of customers, good reputation within the industry for its excellent service support.

**Chevon International (S) Pte Ltd**

Address : 30 Tuas Ave 4, Singapore 639380

Tel : +65 68611812

Email : [sales@chevon.com.sg](mailto:sales@chevon.com.sg)

Website : <http://www.chevon.com.sg/v2/>

**Overview and Success Stories: (Innovation in Process)**

Established in 1994, Chevon International (S) Pte Ltd is a leading manufacturer of a diverse range of Cooling Equipment, serving the Industrial Power Generation, Marine as well as the Oil & Gas sectors. Supported by 500 employees and a manufacturing space in excess of 90,000 square meters in 5 factories across 3 countries, Chevon supplies to customers over 22 countries around the world.

With technology originating from Germany and USA, and over 2 decades of experience and expertise in Design and Manufacturing gained in the heat transfer industry, Chevon's products include radiators, heat exchangers, pressure vessels, plate heat exchangers, charged air coolers, water and oil coolers, air-con coils, condensers, chillers, axial & ventilation fans, fins & tubes, radiator cores and block heaters. These are used in industries such as power generation, oil & gas, marine & offshore, locomotive, automotive, building & construction, pharmaceutical and air-conditioning.

Chevon applies the same care, diligence and professionalism in design and manufacturing of heat exchanger to its service and repair business. Our comprehensive and effective suite of service and repair facilities, equipment and ready-stock of supplies, complemented by a well-trained, qualified and dedicated service and repair crew, enables us to conduct cleaning, servicing, designing, re-conditioning, re-engineering and fabrication of a wide range of heat exchangers that consistently satisfies our customers.

As an ISO 9001 Quality Management System certified company, CHEVON is committed to quality and improvement. CHEVON continually develops and trains its employees, innovate its products to better performance, invest in superior machinery, meet quality standards and on-time delivery requirements in order to provide the best products and services and keep our customers satisfied.

**PBA (S) Pte Ltd**

Address : 2 Woodlands Sector 1 Woodlands Spectrum 1, #03-23 Singapore 738068

Tel. : +65 65766766

Fax : +65 65766765

Email : [info@pbagroup.net](mailto:info@pbagroup.net)

Website : [www.pbagroup.net](http://www.pbagroup.net)

**Overview and Success Stories: (Innovation in Process)**

PBA Singapore was established in 1987 and is a globally renowned leading provider of bearing solutions, linear systems and precision components. Today, we have regional offices in China, Taiwan & Malaysia. Our goal is profit through partnership with our principals and valued customers. By understanding just what it is that customers need, we are able to adapt our structures to provide services that ideally suited customers' specific requirements. Through manufacturing of direct drive motor and providing sub assembly services, we provide a full package to our customers. We have established enduring partnerships with our principals where we can bring together their leading world brands and our distribution strengths in South East Asia. We believe that a significant part of PBA's strength is its people who thrive in a dynamic and challenging business environment.

PBA was nominated and awarded the prestigious Enterprise 50 (E50) in 2007 and 2011. The E50 Awards, first established in 1995, recognise the contributions that local, privately-held companies have made in economic development at home and abroad. Other awards that PBA received since establishment includes Entrepreneur of the Year in 2010, Spirit of Enterprise 2008 & ASEAN Innovative Award in 2011.

## Aluminium Offshore Pte Ltd

Address : 2 International Business Park #02-25 The Strategy Tower 2, Singapore 609930

Tel. : +65 63161232

Fax : +65 63161282

Email : [aopl@aluminium-structures.com](mailto:aopl@aluminium-structures.com)

Website : [www.aluminium-offshore.com](http://www.aluminium-offshore.com)

### **Overview and Success Stories: (Innovation in Products)**

Aluminium Offshore is a pioneer in the design and production of aluminium alloy structures such as offshore helidecks and rooftop helipads. The company and its subsidiaries have built up a reputation for impeccable design, flawless execution and solid customer service. As one of the largest, specialist design-and build companies in the region, we offer a complete design, supply and assemble package to customers who are looking to upgrade traditional steel and concrete designs to a lighter and corrosion resistant metal.

Our key clients includes National Oil Companies, International Oil Companies, Major international drilling contractors, ship-owners, shipyards and also major contractors involved in infrastructural projects such as hospitals and commercial buildings.

The Aluminium Offshore story began – like all good stories – with an idea. That idea was to use aluminium instead of steel in the construction of offshore marine structures. At the time in 1987, such an idea might have been considered unconventional to say the least, but two decades and a lot of hard work later, it has proved to be rather visionary.

At the heart of our philosophy is a deep commitment to both integrity and innovation. It's in our blood and what makes us acknowledged leaders in our field. We have never just built structures. We innovate, research, refine, test and then do it all over again with a kind of divine discontent that drives us to deliver cutting edge solutions and constant cycle of iterative improvement.

The Aluminium Offshore story is based upon taking an innovative idea and, through hard work and dedication, bringing it into reality. This has set the tone for our business over the subsequent 23 years. It is why we have never lost a customer or missed a project deadline and why even our competitors admire and respect us. From that very first idea, Aluminium Offshore has grown to become probably the largest helideck builder in the world with well over 300 helidecks installed worldwide. We like to see it as a vindication of our beliefs and a reflection of our continued hard work.

**Tri-star Industries Pte Ltd**

Address : 36 Joo Koon Road, Singapore 628988

Tel. : +65 62663636

Fax : +65 62653635

Email : [tristar@pacific.net.sg](mailto:tristar@pacific.net.sg)Website : [www.tristar.com.sg](http://www.tristar.com.sg)**Overview and Success Stories: (Innovation in Products)**

The Tri-Star Industries Group started business in the late 1970's, trading and manufacturing bolts and nuts. From humble beginnings, the Group has made significant progress to become a renowned manufacturer of fluoropolymer coated bolts and nuts, cable support and management systems and cathodic protection products & services and Bolts Tensioning Tools & Services for the Oil, Gas, Power, Petrochemical, Marine and Infrastructure Industries in Asia and other parts of the world.

**D'Crypt Pte Ltd**

Address : 30 Midview City, Singapore 573953

Tel. : +65 69331800

Fax : +65 68845142

Email : [marketing@d-crypt.com](mailto:marketing@d-crypt.com)Website : [www.d-crypt.com](http://www.d-crypt.com)**Overview and Success Stories: (Innovation in Process)**

D'Crypt is a boutique design and development house delivering leading-edge cryptographic and security technology and products targeting customized, high-security applications usually working in difficult environments.

Our range of products span encryptors working from kilobits/s to multi-gigabits/s over different types of communication fabric. Our transaction tokens are used country-wide for fare and toll collection in automotive and industrial environments. Since each product is developed entirely in-house, we can also customize products to meet specific demand.

Our products draw from an extensive technology development program. We have capabilities in ASIC, FPGA, and board level designs for high-performance as well as low-power applications. Our proprietary micro-O/S integrated into various cryptographic tokens of our own design has been certified to FIPS140-2 Level 3. Our R&D team into computer and device vulnerabilities regularly discovers Zero-days, from which we are able to craft unique Intrusion-Detection Signatures and Systems. We have the ability to fuzz applications and analyze malware as well.

**Amplus Communication Pte. Ltd.**

Address : 19A Serangoon North Ave 5, Singapore 554859

Tel. : +65 64836089

Fax : +65 64836098

Email : [info@amplus.com.sg](mailto:info@amplus.com.sg)Website : [www.amplus.biz](http://www.amplus.biz)**Overview and Success Stories: (Innovation in Process)**

Founded in Singapore in 1999 by a team of seasoned engineers and managers, Amplus Communication is a global RF, microwave and millimeter-wave technology company that offers leading-edge technologies to the wireless communication and defence electronics industries.

Today, Amplus Communication is a leading Design, Engineering and Manufacturing company in South East Asia. The value proposition of Amplus Communication is to leverage on its in-depth experience in RF, microwave and millimeter-wave design, attractive labour cost of the Far East and its established network of efficient subcontractors to offer design, manufacturing, integration and maintenance services that will help raise the competitive level of our customers and partners.

**Envipure Pte Ltd**

Address : 8 Admiralty Street, #06-03 Admirax, Singapore 757438

Since 1983, Fagerdala Singapore has provided a comprehensive range of total protective packaging solutions to our customers worldwide. Recognizing the importance of growing with our customers, Fagerdala Global Packaging Group (FGPG) was established in 2009. Headquartered in Singapore, it is dedicated to developing long-term partnerships with key customers to service their needs globally. Fagerdala Singapore is now located in 6 countries, with 12 manufacturing facilities, and has over 1000 employees world-wide.

Fagerdala Singapore has also developed a range of sustainable packaging solutions 100% made from recycled polyethylene content that is sourced from our closed loop recycling infrastructure and collections program. Fagerdala Singapore is committed to helping customers reduce their carbon footprint and endeavours to live the dream of “making the world lighter”.

**Excel Marco Industrial Systems Pte Ltd**

Address : 39 Ubi Road, 1 #05-00 World Publications Building, Singapore 408695

Tel. : +65 68586635

Fax : +65 68582884

Email : [david.ong@excelmarco.com](mailto:david.ong@excelmarco.com)

Website : [www.excelmarco.com](http://www.excelmarco.com)

**Overview and Success Stories: (Innovation in Process)**

Excel Marco Singapore Pte Ltd is a premier solutions provider for process automation and safety systems. It is one of the largest automation companies in Asia which specialises in the integration of process control and safety systems in the marine and offshore industry.

It provides turnkey process automation and safety systems, power management systems, tank gauging systems and telecommunication systems. Also offering a wide variety of technical services ranging from safety assessment, systems design, engineering programming and logic translation to full turnkey systems integration, on-site testing and commissioning, training and maintenance. Excel Marco's solutions serve oil & gas production platforms, Floating Production Storage Offloading (FPSO) vessels and jack-up drilling rigs.

Excel Marco is an ISO 9001:2008 certified company. It is committed to delivering results and exceeding customer expectations. The company has an excellent track record with major customers and end-users globally. Some of its clientele include KeppelFELS, Sembcorp Marine, Single Buoy Moorings, Modec, Dalian Shipbuilding, ExxonMobil, McDermott, Petrobras, and Maritime Industrial Services.

**MAJ Aviation Pte Ltd**

Address : General Aviation Centre, 80 Seletar Aerospace View, Singapore 797563

Tel. : +65 64837470

Fax : +65 67520495

Email : [info@majaviation.com.sg](mailto:info@majaviation.com.sg)

Website : [www.majaviation.com.sg](http://www.majaviation.com.sg)

**Overview and Success Stories: (Innovation in Process)**

Founded in 2003, MAJ Aviation has built a reputation for strong customer support backed by performance. Our credentials in both the civilian and military aviation arenas, consulting expertise, strong local network and direct access to first class resources across the region, make MAJ a complete service solution for corporate and individual aviation clientele.

Services and products range from manpower solutions to equipment supply, from specialised engineering support to strategic aviation consulting. MAJ Aviation has established itself as a key player in this field of aviation support and engineering services in South-East Asia.

Recently with a state-of-the-art General Aviation Centre newly opened in February 2012, and centrally located on the east side of Seletar Airport, one can be sure of a high level of service support. And as it features the world's first double storey-carousel hangar for airplanes, it assures the employment of cutting-edge technologies in the engineering services that is delivered by a team of passionate professionals.

**CEI Contract Manufacturing Limited**

Address : 2 Ang Mo Kio Ave 12, Singapore 569707

Tel. : +65 6481 1882

Fax : +65 6481 3293

Email : [tankh@cei.com.sg](mailto:tankh@cei.com.sg)

CEL Coating, established in 1984, is the leading provider of quality surface treatment services for the electronics, beauty, telecommunications, semi-conductor, automotive, oil and gas, aviation and bio medical industries in Singapore. CEL has had successful collaborations with several customers for specialty coating requirements, and is willing to explore new opportunities to diversify and develop new processes.

## Rotating Offshore Solutions Pte Ltd

Address : 5 Gul Road, Singapore 629363

Tel. : +65 67788271

Fax : +65 62665927

Email : [sales@ros.com.sg](mailto:sales@ros.com.sg)

Website : [www.ros.com.sg](http://www.ros.com.sg)

### **Overview and Success Stories: (Innovation in Process)**

Rotating Offshore Systems was established in 2004. We specialise in manufacturing process systems like:

- Gas Compressors
- Power Generators
- Pump Packages
- Dew Point Controllers
- Glycol Dehydration Units
- Sea Water Injection Systems
- for the oil and gas, power, petrochemical and the FPSO Industries. Our systems are designed to international standards like ISO, API, ASME, ANSI, IEC, NEC and NFPA to meet the most stringent applications.

## Far East Packaging

Address : 18/20 Senoko Loop, Woodlands Industrial Pte Ltd, Singapore 758152

Tel. : +65 62576211

Fax : +65 67546895

Website : [www.fep.com.sg](http://www.fep.com.sg)

### **Overview and Success Stories: (Innovation in Process)**

Established in 1976, Far East Packaging Industrial Pte Ltd is a leading corrugated packaging company in Singapore.

Aware of our customers' needs for a total packaging solution, we have established strategic partnerships with companies which produce complementary products, while directing our resources towards the development of our core facilities and technologies.

Aware of the importance of quality and efficiency, we are constantly upgrading our equipment to fulfill our customers' demand for quality. Setting ourselves apart from our competitors, our arsenal include an extra large die cut machine capable of diecutting boards 2.3m in length, as well as machines with process printing capability.

**Global Airfreight International Pte Ltd**

Address : 119 Airport Cargo Road, #01 - 07 Changi Megaplex 1, Singapore 819454

Tel. : +65 65427722

Fax : +65 65453272

Email : [global@globalair.com.sg](mailto:global@globalair.com.sg)

Website : <http://www.globalair.com.sg/>

**Overview and Success Stories: (Innovation in Process)**

Global Airfreight International Pte Ltd. or GAI, in short, was established in 1970 in Singapore as a privately owned company specializing in air freight forwarding between Singapore and Jakarta, Indonesia.

What started out as a two men business operating out of Singapore's old Paya Lebar Airport to Jakarta, is now the largest locally-owned air freight forwarder, with sea freight, local transportation, and warehousing services. Headquartered in Singapore, Global Group has 22 offices in 9 countries including Penang, Kuala Lumpur, Johor Bahru and Port Klang in Malaysia; Phnom Penh in Cambodia; Yangon in Myanmar; Beijing, Shanghai, Suzhou and Xiamen in China; Bandung, Bekasi, Jakarta and Surabaya in Indonesia; Kaoshiung, Taipei and Taichung in Taiwan; Bangkok in Thailand; and Hanoi and Ho Chi Minh City in Viet Nam.

At the same time, GAI has intensified its cooperation with overseas agents and in 1984 joined a worldwide network of cargo agents known as the World Air Cargo Organisation (WACO) to extend our geographical coverage. Today, GAI has the following certifications: Technology Asset Protection Association (TAPA), Regulated Cargo Agent Regime (RCAR), ISO 9001 and BizSafe Level 3.

GAI's vision is to be the "choice logistics solutions provider in the region". Today, GAI has major customers in the Electronics, Pharmaceutical, Aerospace, Oil & Gas, FMCG and Industrial products industries. The Global Group employs over 600 fulltime personnel in 9 countries and 22 cities. Its revenue exceeded S\$250 million and is among the largest SME forwarders in ASEAN.

**Overview and Success Stories: (Innovation in Process)**

Speedmark started with an operation in Taiwan as a freight forwarder back in 1971. It has since evolved into one of the world's leading integrated logistics and supply chain management service provider – maintaining a stellar position in the World IATA Cargo Agents Ranking and with operations around the world. Speedmark offers a full range of freight forwarding services and integrated logistics solutions for the supply chain needs.

Speedmark currently has over 150 wholly owned operations, joint ventures and affiliates all over the world, with our head office based in Taiwan. Our comprehensive international coverage enables seamless global connectivity and end-to-end solutions that best matches your criteria for transit time and flexibility in your pick-up and delivery options.

Over the thirty years, our prestigious list of satisfied clients span every industry around the globe. And, we have built a reputation as their strategic partner in providing integrated freight and logistics solutions and service.

Whilst we embark on a quality management system, we have obtained ISO 9001: 200 certification for our offices. Subsequently, our adherence to stringent security standards have led us to the achievement of Technology Asset Protection Association (TAPA) A-level Certification for our US offices and obtaining of Customs-Trade Partnership against Terrorism (C-TPAT) validation.

With broad global resources, management capabilities and technology advancement, we are able to generate greater value not just for us, but also to create competitive advantage for our clients' businesses.

To ensure our ability to serve our clients' specific requirements promptly, we have established four regional headquarters to oversee our operations aside from our other offices in Europe, Australia, Middle East and East Asia.

**Just Education Holdings Pte Ltd**

Address : Blk 373 Bukit Batok St 31 #03-240, Singapore 650373

Tel. : +65 65630080

Fax : +65 65636626

Email : [feedback@justeducation.com](mailto:feedback@justeducation.com)

Website : <http://www.justeducation.com/>

**Overview and Success Stories: (Innovation in Products)**

Established in 1999, Just Education commenced its business with the first tuition centre, Just Mathematics Tuition Centre, situated in Jurong East. Initially started out with only its founder, Mr Desmond Peh, as the one sole tutor, the business rapidly flourished as positive word of mouth from satisfied customers spread.

Within a few years, it has metamorphosed from a single Mathematics tuition centre to an impressive, full fledged island-wide institution that specialized in total education; providing tuition services for all core academic subjects, as well as enrichment programmes that explore the fields of life coaching as well as creativity.

Today, the thriving company has 19 tuition centres located in the heartlands of Singapore and is currently expanding its business beyond the local market scene. In addition, the company has lately diversified into various business arenas such as publication and kindergarten.

Just Education has come a long way over the years and has now evolved to become synonymous with nurturing, passion and fun learning and most of all, discovering one's greatest potential.

## DPS Engineering

Address : 279 River Valley Road, #05-00, Singapore 238320

Tel. : +65 65139500

Email : [gerard.creaner@dpseng.com](mailto:gerard.creaner@dpseng.com)

### **Overview and Success Stories: (Innovation in Products)**

Founded in 2005, DPS is an Approved Training Organisation (ATO) that specialises in delivering training for the Biomedical Manufacturing Industry. In order to meet the learning needs and demands of the industry, SPRING Singapore supported DPS in developing an online learning platform in conjunction with NTU in 2010. As the next phase of innovative product development, DPS commenced its second project with SPRING Singapore to develop online visual learning tools through mixed reality technologies to augment WSQ practical laboratory modules. Mixed reality - encompassing augmented reality and augmented virtuality - refers to the merging of real and virtual worlds to produce new environments and visualisations where physical and digital objects coexist and interact in real time.

## Rockmoon Pte Ltd

Address : 71 Ayer Rajah Crescent #01-03 Mediapolis Phase 0, Singapore 139951

### **Overview and Success Stories: (Innovation in Products)**

Rockmoon Pte Ltd is serious games product development company based in Singapore. Our business focus is on developing game-based learning products, specifically mobile apps and courseware for teaching and training purposes. Underlying our commitment to quality is our product development philosophy – intuitive fun. We strongly believe that the most effective way to learn is through play, where one learns unconsciously. Since Rockmoon's inception in November 2010, we have been engaged by schools and enterprises to co-create educational games and tools.

**EyePower Games Pte Ltd**

Address : 71 Ayer Rajah Crescent #04-10, Singapore 139951

Tel. : +65 67779041

Fax : +65 67779049

Email : [benson@eyepowergames.com](mailto:benson@eyepowergames.com)

Website : <http://www.eyepowergames.com/about-us.html>

**Overview and Success Stories: (Innovation in Products)**

EyePower Games brings innovation to 21st century learners by developing teaching and learning tools, with a key focus in the area of English language skills acquisition. These tools allow teachers to seamlessly create multi-dimensional, multi-modal interactive learning spaces that incorporate the full range of digital media, enhancing the language-media nexus for English language teaching across the curriculum. They also encourage creativity in learners and provide engaged learning environments that foster collaborative and peer-to-peer learning as well as fostering family involvement in the learning process, even in cases where great distances separate the family members.

EyePower Games aims to establish itself as a trusted household brand that is synonymous with delivering quality products that can be used in schools and in homes. To achieve its goal, EyePower Games will continue to build close relationships with strategic partners in both the education and IT fields. As of January 1, 2009, Arizona State University (ASU) has officially become a shareholder of EyePower Inc., the U.S. subsidiary of EyePower Games. This strategic partnership allows ASU's expertise, resources and connections to reinforce EyePower Inc.'s strengths in innovational learning technologies, helping it to reach its goals in the U.S. more quickly.

Email : [contact@fzdschool.com](mailto:contact@fzdschool.com)

Website : <http://fzdschool.com/>

**Overview and Success Stories: (Innovation in Design)**

FZD School of Design was formed in 2009 as the only Asian school that focuses primarily on entertainment design – a combination of industrial design and traditional 2D illustration. The school offers a 1-year Diploma in Industrial Design as well as other short courses in dynamic sketching, concept drawing, and digital painting. The founder, Feng Zhu, is an accomplished entertainment designer who has led many of the high-profile projects in the entertainment industry, such as Transformers, Star Wars Episode III, and popular games such as The Lord of the Rings and Command & Conquer. He developed Design Cinema - an innovative online learning platform – which demonstrated its success by receiving over 4 million views.

## Singapore Medical Group Limited

Address : 290 Orchard Road, #13-01  
The Paragon, Singapore 238859

Tel. : +65 68361000

Fax : +65 68368385

Website : [www.smg.sg](http://www.smg.sg)

### **Overview and Success Stories: (Innovation in Process)**

Specialist and general practitioner healthcare service provider, Singapore Medical Group Limited (SMG), was founded in 2005. The company has been listed on the Catalist of the Singapore Stock Exchange since 2009. Over the years, SMG has established itself as a provider of high-quality healthcare services in Singapore and around the world. Its clients from China, Indonesia, Mongolia, Russia, the Philippines and Viet Nam account for a third of its business, and the company is looking to expand its presence in more Asian countries.

SMG's Centres of Excellence offer a comprehensive range of healthcare services. Its Eye Cluster offers holistic ophthalmological treatments, while its Aesthetics & Wellness Cluster provides evidence-based body, facial, wellness and dental aesthetic services. The Critical Illness Cluster is dedicated towards bringing awareness, comfort and confidence in obstetrical and gynaecological services as well as preventing, diagnosing and treating cancer. Its Orthopaedics & Sports Cluster provides comprehensive orthopaedic care for bones, joints and cartilage ailments and all conditions which affect the spine.

SMG's management and clinical functions within the Group are kept separate. Hence, the management team will be able to focus on marketing and strategic planning while SMG's team of healthcare professionals and experts devote themselves solely to patient care.

The Group has more than 130 employees across numerous operating subsidiaries and partners in Singapore and overseas. It leverages on medical technologies to meet and exceed the highest patient expectations and encourages staff to constantly upgrade their skills and knowledge to maintain excellent clinical practices.

This successful combination of patient-centric care and comprehensive healthcare infrastructure has not only impressed local patients, but also attracted customers from abroad. To facilitate communication with its international clients, SMG Patient Centre has a team of international staff to provide personalised care for their clients through every step of the process — from their home country to the point of arrival in Singapore, consultation, investigation and procedures, and eventually discharge.

## Q & M Dental Group (Singapore) Limited

Address : 67 Ayer Rajah Crescent, #05-12/14, Singapore 139950

Tel. : +65 67746010

Fax : +65 67786781

Email : [QandM@QandM.com.sg](mailto:QandM@QandM.com.sg)

Website : [www.QandMDental.com.sg](http://www.QandMDental.com.sg)

### **Overview and Success Stories: (Innovation in Process)**

Q & M Dental Group ('Q & M' or 'the Group') is the largest private dental healthcare group in Singapore and one of the leading private dental healthcare services providers in the region. From just a single clinic in 1996, the company has grown to encompass four dental centres, one of which is the largest private dental centre in Singapore, and more than 60 clinics in Singapore, Malaysia and China. It is also equipped with its own dental laboratory which fabricates dental prosthesis such as crowns, bridges, dentures and retainers.

Listed on the Mainboard of the Singapore Stock Exchange, the Group provides a comprehensive range of primary care and specialists dental healthcare services. This multidisciplinary approach means that Q & M is able to serve the diverse dental needs of its patients under one roof. It has a pool of about 150 experienced dentists supported by a team of approximately 300 clinic staff. It serves more than 450,000 patients island-wide, approximately 18% of the Singaporean population that visit dentists at least once a year.

To that end, Q & M believes in making dental healthcare services more accessible to everyone. It is the only private dental healthcare group in Singapore to offer the services of a mobile dental clinic, which has proven popular with companies and educational institutions.

To maintain strict quality control over the equipment and materials used in its dental healthcare services, Q & M has acquired a dental equipment and materials distribution company. This allows it to source for the best equipment and materials at the most competitive rates. The Group also regularly participates in international dental trade fairs to source for the latest dental technology to be introduced at its clinics.

**Alliance Healthcare Group Pte Ltd**

Address : 21 Bukit Batok Crescent, #05-75 Wecga Tower, Singapore 658065

Tel. : +65 65646780

Fax : +65 65646038

Email : [enquiry@alliancehealthcare.com.sg](mailto:enquiry@alliancehealthcare.com.sg)

Website : [www.alliancehealthcare.com.sg](http://www.alliancehealthcare.com.sg)

**Overview and Success Stories: (Innovation in Process)**

Incorporated in 1994, Alliance Healthcare Group currently operates 10 primary care clinics providing preventive and general outpatient treatment to more than 300,000 families in Singapore.

It also has a corporate outpatient programme. Corporate members can have access to cashless treatments for general medicine, specialist treatments, traditional chinese medicine, dentistry and physiotherapy from Alliance's panel of more than 500 island-wide clinics.

Alliance leverages on information technology to develop innovative medical solutions that are personalized, effective and cost-efficient. It has developed its proprietary online health risk assessment tool known as My HealthScanner™ that detects hidden health risks for 27 major medical conditions in seemingly healthy individuals. Alliance has also developed a web-based Chronic Disease Management System that empowers patients to manage and track their own health conditions.

These technology-driven solutions have made evidence-based medical programmes much more affordable, and are playing an increasingly pivotal role in helping organizations manage the challenge of rising healthcare costs.

**Overview and Success Stories: (Innovation in Products)**

Since 1973, Acumed Medical Group of Clinics has been providing a wide spectrum of medical services targeted both private patients and corporate clients. Acumed has established itself as one of Singapore's leading medical care providers. Its years of experience has endowed the company with strong operating systems, knowledge and skilled expertise, which it brings to its network of 12 primary care centres and its women specialist clinics. And thanks to its long history and strong expertise, it is now able to build its capabilities and replicate its success in delivering primary healthcare management to the rest of the world. Acumed has since expanded its range of healthcare services to include dental services in 2009. Naturally, all Acumed doctors and professionals are experts in their field of practice. They adhere strictly to the highest standards of quality and excellence in order to ensure that every patient receives the most appropriate treatment and care. This is complemented by continuous training and development so that every Acumed staff stays up-to-date on the latest medical innovations and treatments.

The company offers a comprehensive suite of healthcare services, including general outpatient services, minor surgery, laboratory services, and a full range of corporate health services. Its women's specialist arm, AcuFem Women's Specialist Services, offers female patients professional, friendly and personalised gynaecology and obstetrics services in a private setting. Many of the company's clinics are equipped with in-house radiology, diagnostics, audiometry and lung function facilities to provide greater convenience for its patients.

To date, more than 1,000 organisations have chosen Acumed as their corporate healthcare service provider. The company works closely with its clients to keep abreast of their latest corporate policies and organisational needs. At the same time, it offers an integrated, efficient and cost-effective range of medical services to suit the unique needs of every organisation. Besides health screening services and outpatient treatment for employees, it also provides occupational health services and consultancy, health education and training and advisory services to organisations.

**T32 Dental Centre Pte. Ltd.**

Address : 1 Orchard Boulevard, #17-00 Camden Centre, Singapore 248649

Tel. : +65 67331388

Fax : +65 67338100

Email : [t32@t32dental.com](mailto:t32@t32dental.com)

Website : [www.t32dental.com](http://www.t32dental.com)

**Overview and Success Stories: (Innovation in Products)**

T32 Dental Centre Pte Ltd is one of the largest dental care centres in Singapore and Southeast Asia. Founded in 2007, its 11,500 square feet facility is equipped with state-of-the-art technology and 18 dental operatories, operating theatres, 2 consultation rooms, a dental laboratory and a digital Computed Tomography (CT) scanner. The team consists of experienced and respected dental professionals from Singapore, Australia, the U.S.A and the U.K. who have received advanced training from some of the best international dental schools around the world in a wide range of disciplines.

Being the leading implant dentistry clinic in the region, the Centre has an excellent track record in this field. T32 is the first dental centre in Singapore to have a Nobel Biocare Procera® scanner, which uses a special computer-aided design system to create solutions that are customised for each patient. The use of wireless technology supports data transmission to dental surgeons, speeding up the treatment processes. It also emphasises on the continuous upgrading of knowledge and technology to provide the best quality care for its patients.

Tapping on its expertise in implant dentistry, T32 has two training centres under its T32 Dental Academy umbrella in Singapore and Shanghai. These centres conduct training workshops for dentists, as well as lectures, presentations and 'live' surgical demonstrations. It has since signed training partnerships with large dental groups such as the Arrail Dental Group and Brånemark Osseointegration Center in China.

T32 Dental Centre was selected as one of the winners for Singapore Prestige Brand Award 2011 in the promising brand category, reinforcing their efforts in providing exceptional dental expertise and customer service levels.

**Transmedic Pte Ltd**

Address : 5, Jalan Kilang Barat, 9th Floor Petro Centre, Singapore 159349

**Cadi Scientific Pte Ltd**

Address : 31 Ubi Road 1, #03-00 Aztech Building, Singapore 408694

Tel. : +65 62762676

Fax : +65 62766216

Email : [info@cadi.com.sg](mailto:info@cadi.com.sg)Website : [www.cadi.com.sg](http://www.cadi.com.sg)**Overview and Success Stories: (Innovation in Products)**

Cadi Scientific is a leader in Radio Frequency Identification (RFID) solutions for hospitals in Singapore and Malaysia. Founded in 2003, the company is best known for its patented, multi-award-winning Cadi SmartSense™, a revolutionary RFID System that empowers hospitals to wirelessly monitor patients' temperature and vital signs, and track their real-time location.

Cadi SmartSense™ helps hospitals enhance patient safety, optimise bed capacity, and improve operational efficiency. A market first, Cadi SmartSense™ monitors patients' temperatures continuously via a comfortable, small disc-like sensor pasted on each patient's body. Known as ThermoSENSOR™, the sensor wirelessly transmits temperatures to receiver nodes around the clock. This means patients can enjoy uninterrupted rest even as their temperatures are being measured continuously. Conversely, clinicians can be alerted to provide timely treatment if a patient begins to run a fever. Nurses no longer need to take and chart their patients' temperatures manually as the system does it automatically.

**HealthSTATS International Pte Ltd**

Address : 6 New Industrial Road #04-01/02/03 Hoe Huat Industrial Building,  
Singapore 536199

Tel. : +65 68583248

PWG Genetics Singapore is a Preclinical Contract Research Organisation providing comprehensive GLP preclinical study services to clients worldwide. To value add our position, we offer multimodal in-vivo anatomical, functional and molecular imaging solutions in the area of MRI, Micro-CT, Micro-PET and Ultrasound for numerous applications when it comes to studies with large and small animals. With our AAALAC accredited husbandry capabilities especially for our proprietary Micropigs (PWG Micropig®), we are able to provide pharmacology/toxicology studies, surgical research and bioresources services to meet the demands of drug discovery and medical device development. Our GLP status also allows us to provide the highest standards in toxicology, bioanalysis, pharmacology/toxicokinetics, clinical pathology, and histopathology studies.

In 2005, PWG Genetics had progressed to a fully functional preclinical research centre. Since then, PWG had achieved and maintained the gold standards in the AAALAC and GLP certification which allows the company to own a reputation of supplying the best preclinical practice that only a few organisations can offer. We are also proud of the numerous sponsors who have come onboard to engage our services including local and overseas pharmaceuticals, bioventures as well as national research institutions. PWG believes in continuing education and R&D to enhance its capabilities in preclinical research and thus has collaborative initiatives with academic institutions.

**Overview and Success Stories: (Innovation in Process)**

EPI Mobile Health Solutions (S) Pte Ltd (EPI) is a healthcare technology company, currently at the forefront of mobile health solutions and virtual health repository services. EPI produces two state-of-the-art medical devices, the EPI Life and EPI Mini, which are capable of recording a person's ECG on the go. Complemented by a suite of other mobile health services and a 24-hour health concierge service, EPI's devices and service are now a well-recognized mobile health solution that has won numerous industry accolades. Leveraging on its innovative technology and development capabilities, EPI will continue to forge ahead in the field of mobile health and develop cutting-edge medical devices with health monitoring capabilities. EPI aims to provide the vital link between physicians and patients globally through our integrated mobile health solutions platform.

**Cordlife Group Limited**

Address : 61 Science Park Road, The Galen #05-16/17/18  
Singapore Science Park II, Singapore 117525

Tel. : +65 62380808

Fax : +65 62381108

Email : [info@cordlife.com](mailto:info@cordlife.com)

Website : [www.cordlife.com/sg](http://www.cordlife.com/sg)

**Overview and Success Stories: (Innovation in Process)**

Listed on the Singapore Exchange Mainboard, Cordlife Group Limited is a leading service provider of stem cell banking from cord blood (Singapore and Hong Kong) and the umbilical cord (Hong Kong).

The company currently owns and operates two stem cell banks with full processing and cryopreservation storage facilities in Singapore and Hong Kong. The company also has a strategic investment in the only cord blood bank operating in Guangzhou, China. Its affiliates also operate in India, Indonesia and the Philippines.

The first cord blood bank to be set up in Singapore (May 2001), Cordlife Group Limited has more than 10 years of cord blood banking experience. The company was amongst the earliest in Asia to be accredited by AABB (formerly known as the American Association of Blood Banks), an association involved in the field of transfusion medicine and cellular therapies. Its processing and storage facility in Singapore is also MOH-licensed, meeting both local and international standards in cord blood banking.

In Singapore, Cordlife was the first private cord blood bank to release cord blood units for the treatment of cerebral palsy and also released other cord blood units for therapy.

The company constantly seeks to improve its services through the use of technology. An early adopter of the Sepax® automated stem cell processing technology, it is a safe, sterile and fully automated cord blood processing technology. It aims to obtain more stem cells for maximum transplant success.

To date, over 40,000 families have trusted their baby's cord blood with Cordlife.

## Thailand

### LeKise Lighting Co., Ltd.

Address : 29/11 Moo 3, Rama 2 Road, Tambon Nadee, Amphur Muang Samutsakorn,  
Thailand 74000

Tel. : +6634 419299

# ASEAN Cooperation in Intellectual Property Rights

The creation, commercialisation and protection of intellectual property (IP) and IP Rights (IPRs) can be a significant source of comparative advantage for ASEAN companies and a major driver of the region's economies.

In accordance with the ASEAN Economic Community (AEC) Blueprint, ASEAN Member States (AMSs) have agreed to jointly implement the ASEAN Intellectual Property Action Plan 2004-2010 and the Work Plan for ASEAN Cooperation on Copyrights (Work Plan). Subsequently, the ASEAN Working Group on Intellectual Property Cooperation (AWGIPC) adopted the follow-on ASEAN IPR Action Plan 2011-2015 (IPR Action Plan), with Philippines as the lead country in the preparation of this Plan.

The IPR Action Plan calls for the creation of an ASEAN filing system for design, the facilitation of design filings by users, and greater coordination among IP offices in the region. To ensure a common regional profile on IP, moreover, AMSs have agreed to accede to common international treaties, including the Madrid Protocol for the registration of marks. The IPR Action Plan also provides for the exchange of information among national enforcement agencies in the protection of IPRs and for regional cooperation in newer IPRs such as traditional knowledge (TK), genetic resources (GR) and traditional cultural expressions (TCE).

The IPR Action Plan is operationalized through the adoption by the AWGIPC of its Work Programme 2012-2015. This includes the implementation work plans for the twenty-eight (28) initiatives under the five (5) strategic goals in the IPR Action Plan.

## **ASEAN Working Group on Intellectual Property Cooperation**

The AWGIPC has served as a consultative body for ASEAN cooperation on IP since 1996. Such cooperation has continued to build on the simplification, harmonisation, registration and protection of IPRs in ASEAN.

In delivering the scheduled commitments under the AEC Blueprint, AMSs have conducted country and regional studies on, among others, the economic contribution of copyright industries. Meetings have been convened on accession to the Madrid Protocol. Pilot projects have been launched by AMSs on the ASEAN Patent Examination Co-operation (ASPEC) and the ASEAN “IP DIRECT”. These two cooperative initiatives help to share patent examination workloads and facilitate access to IP-related information in the region. The AWGIPC also has made a concerted effort to share policy experiences and to monitor regularly compliance of laws and regulations in AMSs to the Agreement on Trade-Related Aspects of IPRs.

In its work, the AWGIPC has collaborated with many partners and organisations. These include the ASEAN Intellectual Property Association, Australia and New Zealand, China (State Intellectual Property Office—SIPO), the European Patent Office (EPO), the European Union, Japan (Japan Patent Office—JPO), the US Patent and Trademark Office (USPTO) and the US Department of Justice, and the World Intellectual Property Organization (WIPO). A long-term cooperation programme with USPTO from 2004 to 2010 has been extended until 2015. The programme focuses on capacity building and training for IP-related professionals and business persons in the region, with an emphasis on the protection, enforcement and commercialization of IPRs.

Meanwhile, a large-scale, four-year ASEAN Project on the Protection of Intellectual Property Rights (ECAP III), which is a follow-up project to ECAP II, was launched in January 2010. The project aims to contribute to ASEAN community building through the better and fuller utilization of IP and IPRs in the region.

### **ASEAN Patent Examination Co-operation**

Cambodia, Indonesia, Lao PDR, Malaysia, the Philippines, Singapore, Thailand, and Viet Nam have launched the ASPEC programme. It is the first regional patent co-operation programme which commenced on 15 June 2009. Brunei Darussalam has since joined the programme on 1 January 2012.

ASPEC aims to share search and examination results between the participating IP Offices to allow applicants in participating countries to obtain the corresponding patents faster and more efficiently. As such, the ASPEC programme will benefit, among others, entrepreneurs, SMEs and inventors in individual AMSs by facilitating a more speedy process of patent grant for innovations in the region.

The programme will potentially reduce duplication on the required search and examination work, thereby saving time and effort. Additionally, search and examination work done on a corresponding application serves as a useful reference in producing quality reports.

As part of a regular review of the ASPEC programme, a revision was made and the ASPEC programme will now operate in the English language in all participating ASEAN IP Offices. The ASPEC Request Form has also been revised.

Interested applicants may consult with ASEAN IP Offices or through their websites for details on the requirements and procedures of ASPEC.
